

Manufacturing Skills Gap Training Update

WORKSHOP

*Presented by the FCMA Workforce
Development Committee*

Make sure your voice is heard by attending this important workshop.

This facilitated discussion is targeted to hear manufacturers' voice in partnership with state colleges. How can we improve the relationship? What's working? What challenges or barriers need to be addressed? How do manufacturers ensure that colleges produces work-ready graduates?

This workshop will provide FCMA members the opportunity to participate in processes of identifying skill gaps, relevant curriculum updates, expanding the exposure of manufacturing across the commercial sector, and increase manufacturing interests with respect to state legislative priorities.

Presenters:

Tina Berger, FloridaMakes Director of Talent Development

Marilyn Barger, Florida Advanced Technological Education (FLATE), Executive Director
