Real Projects with
COB LED Strips & Profiles

Lighting Made Simple

www.topedprofile.com

Architectural Project – Hotel Corridor

Challenge

Hotel required modern, continuous lighting for corridors. Traditional fixtures created shadows and inconsistent brightness.

Solution

Installed COB LED strips with recessed aluminum profiles for seamless linear light.

Result

Corridor achieved a clean, modern look with uniform brightness and reduced maintenance cost.

Showcase Project – Retail Display

Challenge

Retail store needed high-quality lighting to highlight jewelry products, but traditional SMD strips caused visible dots and uneven light.

Solution

COB.LED strips made b aluminum profiles and diffusers for smooth, uniform lighting

Result

Products appeared more premium, sales area looked modern, and customer satisfaction improved

COB LED strips transformed the showcase with smooth,

Residential Project – Kitchen & Wardrobe

Challenge:

Homeowner wanted modern lighting for kitchen cabinets and wardrobe, but space was limited for bulky fixtures.

Solution:

Installed COB LED strips with slim aluminum profiles and hand-wave sensors.

Result:

Easy installation, stylish look, improved user experience with smart control.

Slim COB profiles with smart sensors upgraded home lighting with style and convenience.
