

A modern interior space featuring a ceiling and walls with integrated COB LED strips and aluminum profiles, creating a warm, ambient glow. The lighting is recessed into the architecture, highlighting the clean lines of the design.

TOP 5 ADVANTAGES

COB LED Strips & Aluminum Profiles –
Lighting Made Simple

Why choose us? Here are the 5 key
reasons lighting professionals trust TLP.

Shenzhen TLP Electronics Co., Ltd

Advantage 1

Seamless Lighting Effect

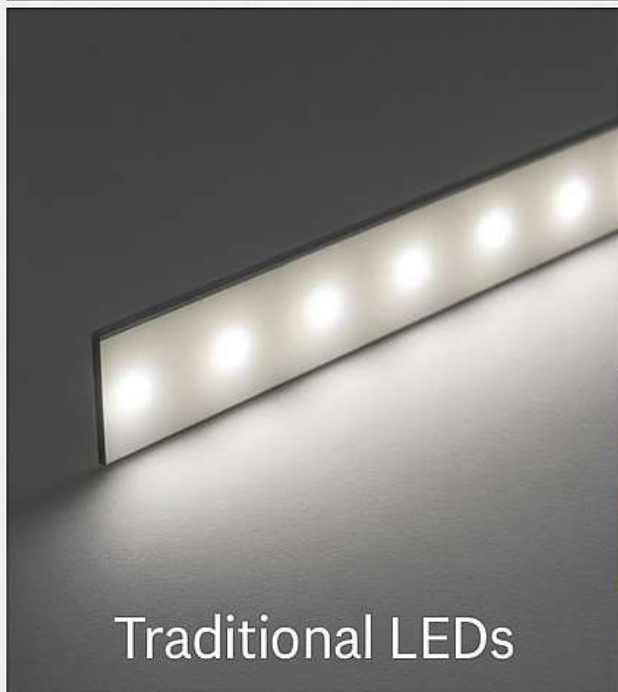

COB LED Strip

COB LED strips create uniform, dot-free lighting

With diffuser + aluminum profile, the effect is smooth and professional

Perfect for architectural lighting (ceilings, walls, corridors) and display projects (retail, museums, showcases)

Traditional LEDs

No more visible LED dots – just smooth, seamless light.

Advantage 2 – Ready-to-Use Kits

- Not just single products, but complete lighting kits
- Includes: COB LED strip + aluminum profile + diffuser + end caps + mounting clips
- Saves time for designers & contractors: buy and install directly
- Avoids mistakes from mismatched parts

*We make it simple – all parts
in one kit, ready to install.*

Shenzhen TLP Electronics Co., Ltd.
