The compatible replacement battery for Disney's Minnie Mouse Lil' Quad ride on the toy is a high quality rechargeable battery that is designed to provide excellent performance, durability and long life in driving your child on the toy. When replacing the battery, open the plastic case, disconnect the old battery from the inside of the battery, and install the new one. Remember the polarity of the wires. The fuse is on the negative terminal (black). Replace exactly the same way, close the battery case. This process should take less than 5 minutes. If you're not sure how to do it, be sure to check out the many Videos on YouTube that will take you through the process. The Minnie Mouse Lil' Quad compatible replacement battery from Power Wheels Disney is covered by our industry, which is the first year of replacement warranty. An extended warranty of up to 3 years is available for your convenience. Our warranty includes shipping costs and is hassle-free, the only warranty of its kind on the market. Tips to help you get the most fun out of your ride on the toy battery: - Charge the battery before the first use, follow the instructions provided with your charger (no more than 24 hours). If you have a newer charger, there will be a green light to indicate that the battery is fully charged- Charge the battery as the vehicle shows low power, you will avoid battery damage - Do not use the battery until the vehicle is totally lost all power. Battery drainage like this will cause permanent damage to the battery and significantly shorten its life- If you don't use your vehicle for a long period of time or plan to store it, charge the battery to full, then unplug the battery from the vehicle's main harness. Don't leave the battery plugged into the vehicle while you're in storage. This permanently drains and damages the battery- Remember to charge the battery at least once every three months- After storing the vehicle, give the battery a full charge before the first Don't forget the batteries while charging! Check them periodically. If you notice that the battery is getting hot, disconnect it right away Physical Dimensions: Rated Voltage: 6VNominal Capacity: 7AhTerminal Type: F1 (0.187) Weight: 2.61 lbsLength: 5.94 (151 mm)Large: 1.34 (34 mm)Height: 3.70 (94 mm)Fisher-Price® is a registered trademark of Mattel, Mattel, is not affiliated, approved by, or licensed by Mattel, Walmart Inc. is there to help make every day easier.
