Zither sheet music pdf

For your convenience, our store now has available music books Seter! Books and downloadable single sheets are also available through World of Harmony Music! Meet Debbie Center, our good friend and founder of World of Harmony Music! Hello! My name is Debbie Center and I am the founder of a unique music program called World of Harmony Music, which started in 2000 when I started writing music for my daughter, Deanna. Since then I have taught over a thousand children to play the music I wrote and it just was an amazing journey! I decided to publish my books in April 2010, and now I have sold over seven thousand books in all fifty United States as well as thirty-four other countries. Who knew so many people were playing zither?! The emails and other connections I made with people all over the world were pure treasures and I am so happy that my little books inspired so many people to become musicians. I really hope you'll enjoy my book, too! For every book I sell, I donate \$1.11 to Headwaters Animal Shelter (Deanna's Heaven) in Park Rapids, Minnesota, which is close to our home and very expensive for us. I am so grateful to have met Bill and Lisa LaCasse and I'm just thrilled that they are handmade beautiful zithers in addition to my books! What an honor. I just love my zithers from Bill and Lisa and I know you'll love yours, too! Together we create a world of harmony through music, one family at a time! Save Save Save Welcome to the World of Harmony Music, where you'll find zither music books, printed notes, and original artwork. All the music books were written and printed in Colorado and Minnesota, my two hamsters. If you want to teach music, give someone the gift of music or art, buy works of art, or learn to play an instrument yourself, you have come to the right place. World of Harmony Music is an interesting and easy way to perform and learn all about dozens of works of classical music, as well as contemporary music and folk melodies of different cultures. If you want this music for your own fun and education, you're home learning, you would like to teach kids yourself, or you would like to teach your own classes to students of any age, these books will make this goal so fun and easy! These books are a fundraiser for our daughter's college foundation. She is learning to become a veterinarian so she can really help the animals of her beloved Headwaters Animal Shelter in Park Rapids, Minnesota. Don't forget to check out a lot of videos of me playing zithers in the world of harmony music on YouTube. What's ziter? The tool is also called lap harp, kimbala, yerbonitsa, or plucked psalmery. They are so easy to play with your first try! You're just slipping under the zither string, pluck the strings in the order shown on the notes, and enjoy immediate success by playing music! People never believe me when I tell them that children as young as 3 or 4 can play zither. Bring Debbie to your school Debbie Center also likes to travel the world to share her program with students and teachers alike. In April 2014, she spent a week in tiny Adak, Alaska, teaching at a school that could never incorporate music into her curriculum. It's been an incredible week for everyone involved and it's been an experience that Debbie would like to provide for other schools around the world!
