

Dan Belchar  
President of eLiT Installation Network

Dan has worked for 40 years providing professional sales skills training, public speaking, and team building for multiple companies. He obtained knowledge in business, marketing, and aeronautics from the College of San Mateo. Dan is also a Tony Robbins Life Mastery graduate.

Born in San Francisco, CA, Dan has founded several companies over the years, most notably LeisureTime.com, an online travel company built into a 5 million dollar a year company. Dan has had great success in team building. He developed and managed a team of over a 1000 agents for LegalShield where he generated millions of dollars in revenues for the company. However, much of his career has been focused on developing and training sales teams in the resort industry.

After living and working in luxury resort areas in California, Nevada, Hawaii and Mexico, Dan made a strategic move to Las Vegas in the year 2000 to open the Cancun Caribe Resort, the flagship property for Pacific Monarch Resorts. The resort had over 1000 units under construction when Dan started. He was responsible for hiring the entire sales force of over 100 people, and then training and managing them. The sales force quickly created over 3 million dollars a month in business.

Dan holds a Real Estate Brokers license in Nevada and Real Estate licenses in California and Hawaii. He is responsible for hundreds of millions dollars in real estate sales over the years. Dan is a professional public speaker and during the last five years has focused on speaking for the resort industry in Las Vegas.

Dan enjoys helping to create and develop companies to their fullest potential and watching them grow. He balances work with his other passions: traveling, skiing, golf, and spending time with his wife and two kids.

Dan is extremely excited to join the Strategic Innovations Team and we are thrilled to have him as President of eLiT Installation Network with his diverse skill sets.
