# NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 30 June 2017

## 1. BASIS OF PREPARATION

The Group's condensed consolidated interim financial statements for the six months ended 30 June 2017 have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and the disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"). They have been prepared under the historical cost convention, except for biological assets and certain financial instruments which are carried at fair value. The condensed consolidated interim financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated. The condensed consolidated interim financial statements are unaudited but have been reviewed by the Audit Committee.

## 2. SIGNIFICANT ACCOUNTING POLICIES

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for biological assets and certain financial instruments which are measured at fair values. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

The accounting policies and method of computation used in preparing the condensed consolidated interim financial statements for the six months ended 30 June 2017 are consistent with those used in the annual financial statements for the year ended 31 December 2016 except as described below.

In the current period, the Group has applied, for the first time, the following new and revised Hong Kong Financial Reporting Standards (the "new and revised HKFRSs") issued by the HKICPA, which are effective for the Group's financial period beginning from 1 January 2017. A summary of the new and revised HKFRSs adopted by the Group is set out as follows:

HKAS 7 (Amendments)	Disclosure Initiative
HKAS 12 (Amendments)	Recognition of Deferred Tax Assets for Unrealised Losses

The Directors considered the application of the above new and revised HKFRSs has no material impact on the Group's financial performance and financial position for the current and prior periods.

The Group has not early applied any new and revised HKFRSs that have been issued by the HKICPA but not yet effective.

## 3. SEGMENT INFORMATION

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision makers (the "CODMs"), being the executive directors of the Company, in order to allocate resources to segments and to assess their performance. The operations of the Group constitute one reportable segment, i.e. slaughtering and trading of pork products. This is also the basis upon which the Group is arranged and organised.

### 3. SEGMENT INFORMATION (Continued)

The information reported to the CODMs for the purpose of resource allocation and assessment of performance, is with reference to profit before taxation and assets which do not contain the (loss)/gain arising from change in fair value less costs to sell of biological assets. ## 11. BIOLOGICAL ASSETS (Continued)

The Group's biological assets as at 31 December 2016 and 30 June 2017 have been arrived at on the basis of a valuation carried out by an independent qualified professional valuer. Given the nature of the biological assets where market determined prices are available, the fair value less costs to sell have been determined by the market approach based on the market determined prices as at 31 December 2016 and 30 June 2017 adjusted with such attributes as pig breed and stage of growth in the lifecycle. The resulting loss arising from changes in fair value less costs to sell of biological assets of approximately RMB1,901,000 (gain recognised for the six months ended 30 June 2016: RMB9,383,000) has been recognised directly in profit or loss for the six months ended 30 June 2017.

### Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair values of biological assets:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

### As at 30 June 2017

	Level 1 RMB'000	Level 2 RMB'000	Level 3 RMB'000	Total RMB'000
Breeder hogs	–	25,724	–	25,724

Breeder hogs	–	34,791	–	34,791
Porkers	–	68,592	–	68,592
Total biological assets	–	103,383	–	103,383

## 11. BIOLOGICAL ASSETS (Continued)

### Fair value hierarchy (Continued)

During the six months ended 30 June 2017, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3 (31 December 2016: Nil). The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

### Valuation techniques and inputs used in Level 2 fair value measurements

The fair value less costs to sell of the breeder hogs and porkers are determined with reference to the market-determined prices of items with similar age, weight and breeds.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Business Review

The Group is one of the largest pork suppliers in Changde, Hunan Province, the PRC, and is principally engaged in the production and sale of pork products, and its operations mainly involve hog slaughtering as well as hog breeding and hog farming. The Group's pork product line ranges from fresh, chilled and frozen pork, to side products as well as processed pork products including cured pork and sausages.

In the first half of 2017, the Group faced challenging market situation. According to the market statistics, the price of pork products recorded a continuous double-digit decrease since the Chinese New Year. The decrease is mainly due to the supply exceeds demand, which is mainly resulted from: (1) the quantity of imported pork products maintained at a high level since 2016, while their unit price is generally lower than the local pork products; (2) in the past 2 years the local breeding farmers were attracted by the continuous high price of pork products and thus increased the investment in breeding hogs, which resulted the over-supply of pork products; and (3) the continuous changing of dietary habits, in which more and more Chinese people would prefer to spend more in pork products with high quality, or other alternatives such as chicken or beef in order to maintain a healthy diet and fulfil their need of protein. As a result of the decrease in market price and also the decrease in slaughtering volume, during the six months ended 30 June 2017, the revenue of the Group was approximately RMB337.8 million, which was approximately 57.1% less than the same period of 2016.

In order to deal with the changing market environment, the Group has already taken a few actions. The new strategies of the Group included building up the brand targeting those mid-to-high end customers. The Group is fine-tuning the supply chain and reformulating the source of hogs such as actively eliminates certain old breeder hogs and sources other better species as replacement in order to enhance the quality of pork products. Furthermore, with the aim of enhancing the utilization efficiency and reduction of costs, in May 2017 the Group disposed a small breeding farm at a consideration of RMB14.5 million and figuring other ways to reduce the idle capacity. Such move may not only cutting-down the low efficiency assets, but will also provide funds to the Group as spare working capital. The slaughter industry is a cash-base industry and the Group may need to settle the cost of hogs within a short period of time, and thus the Group has the intension to maintain a higher level of working capital for dealing with the difficult market situation. Also, in view of a series of heavy rain incurred during the previous weeks in the Hunan Province, the Group is undergoing full investigation on the structure of plants and farms. The Group will make necessary repair and treatment in order to maintain a healthy operation. The Group is also considering other ways to reduce fixed costs and increase the cost elasticity by means of restructuring the supply model.

In December 2016, the Company proposed to raise approximately HK\$144.75 million, before expenses, by way of the issuance of 289,490,000 rights Shares to the qualifying shareholders at a subscription price of HK\$0.50 per rights Share on the basis of one (1) rights Share for every two (2) existing Shares held on the record date (the “**Rights Issue**”). The Directors consider that the Rights Issue will (i) reduce the uncertainty over the Company’s financial position to repay part of the outstanding balance of such borrowings which incur high interest rate; (ii) strengthen the capital base of the Group and give the qualifying shareholders equal opportunity to maintain their respective pro-rata shareholding interests in the Company; and (iii) provide the Group with flexibility in identifying potential investment opportunities. The Rights Issue was completed in February 2017. The gross proceeds and the net proceeds of the Rights Issue were approximately HK\$144.75 million and HK\$140.53 million respectively. The Company intended to use (i) approximately HK\$87.82 million (representing approximately 62.5% of the net proceeds from the Rights Issue) for repayment of the borrowings of the Group; and (ii) approximately HK\$52.71 million (representing approximately 37.5% of the net proceeds from the Rights Issue) for general working capital of the Group and financing any future business opportunities as may be identified by the Company. Details of the Rights Issue are set out in the announcements of the Company dated 15 December 2016, 28 December 2016 and 1 February 2017 and the prospectus dated 9 January 2017.

Since 10 January 2017, the board lot size of the shares for trading on the Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) of the Company (the “**Shares**”) has been changed from 2,000 shares to 4,000 shares.

During the six months ended 30 June 2017 (the “**Reporting Period**”), the actual use of proceeds of the Rights Issue is as follows:

<b>Net proceeds raised (Approximately)</b>		<b>Intended use of proceeds</b>	<b>Actual use of proceeds (Approximately)</b>
HK\$87.82 million		For repayment of the borrowings of the Group	Fully used as intended
HK\$52.71 million	HK\$8.67 million	For payment of finance cost	HK\$2.90 million was used as intended.  The remaining balance of fund raised HK\$5.77 million is not yet due for payment, in order to utilize the idle cash and seek for short term return in accordance to the treasury policy as adopted by the Company, the Group used HK\$4.91 million for acquiring listed securities.
	HK\$3.24 million	For payment of legal and professional fee	HK\$2.79 million was used as intended
	HK\$2.45 million	For payment of staff and related cost	HK\$1.61 million was used as intended
	HK\$0.82 million	For payment of rental and office expenses	HK\$0.32 million was used as intended
	HK\$2.40 million	For payment of other administrative expenses	HK\$1.37 million was used as intended
	HK\$35.13 million	For future business opportunities	HK\$0.15 million was used for setting up a licensed money lending company.  In order to utilize the idle cash and seek for short term return in accordance to the treasury policy as adopted by the Company, the Group used HK\$34.98 million for acquiring listed securities.

Meanwhile, the Company understands providing incentives or rewards to the eligible persons for their contribution to the Group is important for long-term development of the Company. On 10 April 2017, the Company had granted a total of 40,000,000 options of the Company at an exercise price of HK\$0.51 per Share (the “**Option(s)**”) to a Director, eligible employees and consultants of the Group. Among the Options granted, 5,000,000 Options were granted to an executive Director of the Company. Details of the grant of Options are set out in the announcement of the Company dated 10 April 2017.

## Financial Review

For the six months ended 30 June 2017, the Group recorded revenue of approximately RMB337.8 million, representing a decrease of approximately 57.1% as compared with the same period of last year. The reduction was mainly due to the decrease in the slaughtering volume as a result of keen competition from imported pork products and also the changing dietary habit, and also the lower unit price as compared with the same period of last year as a result of supplies over demands. Given the selling price of pork products is more elastic than the cost of hogs, this resulted that the average selling price of pork products decreased at a faster pace than the average cost of hogs. Also, the smaller slaughtering volume means the lower utilization rate, and hence each product may bear more fixed costs. As a result, the average gross profit margin of the Group decreased from approximately 10.2% in the first half of 2016 to approximately 5.0% in the Reporting Period.

The selling and distribution expenses of the Group for the six months ended 30 June 2017 decreased by approximately RMB4.9 million to approximately RMB9.7 million since the sales volume decreased during six months ended 30 June 2017.

For the six months ended 30 June 2017, the administrative expenses of the Group were approximately RMB23.7 million, while it was approximately RMB15.6 million during the same period in 2016. During this period, the Company granted Options to certain individuals, and thus an one-off equity-settled share-based payment expenses of approximately RMB7.6 million was recognized.

The Group’s finance costs were approximately RMB4.3 million for the six months ended 30 June 2017, while it was approximately RMB8.1 million during the same period in 2016. The Company completed the issuance of new shares under Rights Issue during the first half of this year, and applied certain proceeds to repay the borrowings of the Group and thus the finance costs were reduced.

The profit attributable to owners of the Company for the six months ended 30 June 2017 was approximately RMB2.3 million, while it was approximately RMB54.7 million in the same period of 2016. The reduction was mainly due to the decrease of slaughtering volume and selling price, losses resulted from the elimination of breeder hogs and also the recognition of an one-off equity-settled share-based payment expenses during the Reporting Period.

The total non-current assets of the Group decreased by approximately RMB46.2 million from approximately RMB805.0 million as at 31 December 2016 to approximately RMB758.8 million as at 30 June 2017, which was mainly due to the disposal of a small breeding farm and also the elimination of breeder hogs during the Reporting Period.

### Foreign Exchange Exposure
