Dulfy hunting guide

A comprehensive guide to hunting and whaling presented with patch Valencia. Introduction to hunting and whaling is a new life skill that has been greatly expanded with the renewal of Valencia. Now you can hunt whales and crocodiles to align your hunting skills and kill blue whales to work out some of the best items in the game. To hunt all you need is a hunting musket Butcher knife (Try to get happy if possible, so you can get the best drops from cutting) Fishing Boat Level Hunting is different from other skills. You can align it with a series of short one-time quests and 4 repeatable daily quests. In addition, you can hunt whales and crocodiles to gain hunting skills, but you have to be a man to the butcher carcass to get hunting XP. You also have to use hunting muskets to kill whales and crocodiles as conventional weapons are quite ineffective. The Muskets are a disposable weapon with short recharge time after each shot. Equipment them will replace your main weapon and slow down the speed of movement. You can't jump with hunting muskets as pushing the space bar moves you into a squat position that extends the range of your hunting musket. Here's a great video from MaoMaoPrince showing off some of the concepts of hunting and whaling in video format. Hunting muskets is the most basic one that you can use to complete some hunting daily newspapers you can rent from various NPC for 2 contribution points. It has only 10 durability, so it has to be repaired or returned and re-rented frequently. Below is a short list of NPCs from which you can rent Practice Matchlock. You can simply enter Matchlock into the NPC box next to your mini card to see who you can rent from assuming you've met with the NPC before. Daphne DeLucci by Balenos Forest Knot Guild Manager Liano Pietro at Velia General Goods Supplier Hessenvale's Western Guards Camp Beginner Hunting Musket Crafting it requires a Level 1 Tool Workshop that can be found in almost every city. It will take 5-15 minutes for the work craft (depending on the speed of the employee). 1x Fir Timber (can be obtained from Treant Forest work hub north of Trent) 4x steel (Heating 20x molten iron shard and 20x charcoal) 1x Bronze ingot (Heating 5x Melted Copper Shard and 5x Molten Tin Shard) 1x Black Stone Powder Raising There is no safe level of increase, each level of enhancement adds 300 more damage. A charming outside No.7 can cause him to lose a level raise when he fails. A charming outside No.7 can cause him to lose a level raise when he fails. Level 0 1 2 3 4 5 6 7 8 9 10 Damage No2700 No3240 No3780 No4320 No4860 6480 No7020 No7560 8100 Hunting quests in the forest of seclusion - 40 Amiti with Hessenvale Unlock this quest, after receiving 40 amiti with Hessenvale, a general merchandise supplier at the Western Guard camp. You can do this with a mini-game amity or with the F1 Greet command. Ready to spend about 40 energy or more if you do it this way (if the quest doesn't unlock right away, you may need to increase your capacity with it for just over 40). Now be sure to rent a Matchlock from the NPC and go to the quest area. Look at the trees and shoot the ups there. They can be a little hard to see. Bee Hurts Farm - Gathering Rookie 5 and 10 Amiti with Alfredo to unlock this quest, you first need to talk to arms dealer Alfredo near the skills instructor in Velia. You have to get 10 amiti with it. You can make amity mini-games or just use the F1 button next to it a couple of times. Then he will give you a daphne Matchlock quest. The quest should lead you to Daphne near the Balenos Forest node. Talking to her and choosing a Bee Hurts Farm quest will begin this one-time hunting quest. Make sure to rent a rifle from her for 2 contribution points. Enter the quest area and shoot the hives in the trees 3 times to complete this quest. Shoot and Help - Level 30 This quest is also from Daphne DeLucci but to get it you don't have to practice Matchlock in your inventory. No matter who you rented it from, you can just go back to it and then check out her quest list for that quest (should appear at the bottom of the list). This quest is basically a repeat of the last quest with the same goals, but you will also get a novice hunting rifle as a reward. Don't forget to rent a rifle from Daphne after you get the quest. Hunting loving hunter Full shoot and help from Daphne and she will give you this quest in Velia. The quest will take you to the hotel. You will need to talk to Black-Robed Man and he will mark the location of this hunter for you. You'll find Chuck Laurie as soon as you arrive at the marked place. Completing this will unlock daily from it. Brothers on Lake Kaia to get this quest, you must have finished the Hunting Hunter quest above and made daily fly like a butterfly, sting like a bee! Chuck Laurie. He will then give you this quest to unlock another daily in Lake Kaia with his brother Leo Laurie. Annoying jellyfish (level 50) Get this quest from Merio near Lake Kaia, you just need to be level 50. Defeat 3 jellyfish in Lake Kaia, they just swim in the water. You have to defeat them using your practices, regular muskets do not work. Daily these Seagulls! (Repeated (Repeated 22 hours) This daily is given to Cryo in the velia docks. To get this daily you must have the practice of Matchlock rented from the NPC in your inventory. You have to aim for seagulls to fly in the sky near the docks to complete this daily. Eye for An eye (Repeated Daily Reboot) west of Heidel is a small cow farm with a villager that will give you a daily cat that swallowed the Canary to put up a scarecrow. Finish it and it will give you this hunt daily. Shoot a pair of eagles flying overhead and they will drop the pen for you to complete daily. Fly like a butterfly, sting like a bee! (Repeated Daily Reboot) Given Chuck Laurie, you will need to complete a quest to shoot and help and hunt a loving hunter to unlock this daily. Give him 10 holes and he will call the witch deer near your location. Now you need to track it through the monster icon on the minimap. Be vigilant not to get too close or the witch deer will run away. Once you get close enough to see his sign, click the space to sit down and shoot the rifle. It will take a couple of hits to finish the deer off so you will need to continue chasing him and hitting him. Epicurean Alligator (Repeatable Daily Reset), given by Leo Laurie, you will need to complete the Brothers quest on Lake Kaia to unlock this daily. He's got five deer meats to call the alligator. Deer meat is given to the Brethren on Lake Kaia as a reward. If you need more deer meat you can kill moose in Phoniel cabins east of Lake Kaia. The alligator will swim around the island, so it's very easy to track it down. It just takes a lot of shots to kill it. Once you've killed him jump on the corpse of the Gator bull and then use the butcher's knife to get his meat. Pass it to complete daily. Humpback whale hunting Humpback Whale Hunting is one way to get XP Hunting outside of daily newspapers. There are whales in the ocean north of the bulk of the land you can hunt down. They roam in specific regions marked with icons of pink whales on the map below. You must have a fishing boat, a hunting musket and a cutting knife. Hunting XP is a looted dead whale when you're a butcher so only one person can get it (only a butcher to get an XP hunt). This activity can be done solo on any level as the whales do not fight back. Whales can be a little difficult to detect, so you need to keep an eye on the ocean. They will also show up as outing icons on the minimap if you are close enough. They have a characteristic splash of water, which is slightly different from the regular sprays made by the waves. Once you notice the whale you need to get close and then equip the hunting musket to shoot. Depending on the musket, this may pretty many hits to kill him. Be sure to push the space when you use the rifle to sit down and shoot further. Once the whale is dead, you have to swim to it and find a way up the corpse. Equip a butcher's knife and R butcher corpse and collect prey and hunt XP. Usually you'll just get hunting XP and soft meat whales, but there are chances to get Blackstones, Hard/Sharp Black Crystals. Hunting Crocodile Crocodiles are a good alternative to humpback whales if you do not have access to a boat or do not have the patience to search for whales in the open. Freshwater crocodiles can be found in shallow water in the north and south of Lake Kaya just southwest of Calpheon. However, they are hotly contested and have a long timer respawn (1 hour), so they are not always available (can channel swap for lower pop channels for better odds). This activity can also be done solo as crocodiles don't fight back either, but you can be close to level 50 in level because of the som with mobs out there. Much like humpback whales, the only butcher to get an XP hunt, something to keep in mind if you're hunting in a party or challenging spawning with other players. Usually you can find 1-2 freshwater crocodiles in each of the lakes in Lake Kaia. I prefer the northern lake myself as there aren't many annoying catomas out there (level 45-50ish). The best way to see if they are on your channel is to do a quick scan on your mini card. Crocodiles appear on your mini cards with monster icons, so go to the middle of the lake and do a quick 360 scan using a mini card. To get the experience to kill you will need to butcher the corpse of a crocodile after you have killed him. Usually you just get some hunting XP and crocodile meat, but there are chances to get Blackstones, Hard/Sharp Black Crystals. Hunting Blue Whales Blue Whale is a giant whale that spawns every few hours with a server message and requires multiple parties to take off. You will need a party with the designated fishing boat driver and several hunters equipped with the best hunting musket, which they can get at their skill level. Bring your best musket and extra muskets to back up the increase you use to the durability of your best. Bring a butcher's knife, lucky if possible for the best drops. Only the top 5 batches that have inflicted the most damage on the Blue Whale get the opportunity to butcher the corpse and get prey at the end. The loot is a party together so the boat driver doesn't have to worry about shooting the whale until the rest of the party does its job. Blue whales also have a huge amount of health, so expect to take an hour to kill it with multiple sides. Search for the blue whale after the blue whale spawns, your Hunting button near the mini map will be lit and you can hover over it to see the very rough location of the blue whale. The blue whale will appear randomly 3 times a day on the canal. Here is a map and route of Blue China provided by Daum. Blue Whale Follow the route here and depending on what region the whale is in, it will follow a different route. Red line points to whales in Calfeone, yellow line Balenos, and the blue line points to the whales in Mediah. Boat Speed Blue Whale moves very fast, so you will need a fast boat to be able to keep up. Fishing Boat is the fastest boat to work with and there are parts and skins you can put on to boost it even more. See this guide to making Fisherman's Boat parts/accessories. The faster your boat, the faster you can get to the blue whale and be able to keep up with it to ensure your party does the maximum amount of damage. Fishing Boat Prow - 1% Speed Of Motion Equipment Prow, Cargo Container and Decoration will give you a 2% speed of movement as a set bonus. Equipment Dark Thorn Fishing Boat Hull from Pearl Shop will give you an extra 1% speed. If the extra 4% speed is not enough for you, you can charm Prow with Armor Blackstones to increase its speed value. 10 Prow along with other parts and skins will give you a total of 9% more speed. Rising Level 0 1 2 3 4 5 6 7 8 9 10 Speed 1% 1.5% 2.5% 3% 3.5% 4% 4.5% 5%5.5% 6% Instead of using Prow, you can also buy sea totems from various fishing traders in various docks and it is. It will take the prow place, so you can't use both at the same time. Totems require you to install a totem and then fish on a boat for specific fish corresponding to your totem to level it. So if you brought the Sea Totem Amberjack, for example, you will need to fish for Amberjack on your boat with a totem equipped in the boat interface (F2). Totems have much more time to align and you need to be in a certain fishing rank to upgrade them to the next level (Profession 1 for the first level). However, they are given much more speed driving bonuses along with other benefits. Once the totems reach 80% of the level, they can be upgraded with a totem button in your inventory with blackstones weapons to the next level (may fail and totem lose some XP) Totem Old Plain Hard Exquisite Sacred Speed 2% 4% 6% 10% 10% 14% 18% Fishing level to upgrade Prof 1 Craftsman 1 Master 1 Master 1 Master 1 Murder and Meat Whale Attacks Blue Whale a little harder as it has quite a cool and you can only hit it with a musket as soon as you get close enough to it. To be eligible for a hit, you must aim for the red crosshairs that appear on the kite. It may be easier for some people to aim at the tail when it flips downwards. Make sure you're not locked by other players, pets and parts of the ship as they can absorb your shots. Having attack speed and critical strike enthusiasts also Help with planting more and more hits from the musket. Having a speed transfer can help you swim faster and get back on the boat faster if you get knocked down. This is still debatable if wearing luck or precision gear has any effect. If your boat is too close to He will collide with the whale and stop your boat. Also, if your boat is next to the whale when it turns, it can knock everyone but the driver off the boat. For a faster turn on a fishing boat, use mouselook and press T (assuming you don't have a set of trajectories). Your hunting musket will only lose strength if it registers a blow on the whale, so you can use this to track the number of hits you have scored on the blue whale. Once the blue whale is dead, the top 5 parties that have done the most damage will be allowed to jump on the carcass and rob it. There will be a notice of the top 5 parties, so you'll know if your party is one of them. Blue Whale usually drops Blue Whale Meat/Tendon/Oil to make some of the best food/potions and some goodies like Blackstones, Hard/Sharp Black Crystals, but on rare occasions it will drop the Blue Whale Molar, which can make one of the best earrings in the game. The Hunt Fugitive Hulk Fugitive Hulk is a giant bat that appears randomly twice a day on a canal in the Calfeon and Mediah area. This hunting target was added with the patch on September 14. You have to hunt the Hulk on horseback as he moves fast. However, it has a much shorter path, so it's easier to catch. You have to equip your musket before you get on the horse for proper animation to show. Much like blue whales, the only top 5 sides that do the most damage will get prey. Here are some tips to make your Hulk hunting experience more enjoyable. Bring carrots and horse with good speed. Your horse will take a beating from all the boars, cyclops running around chasing you and the stamina will run out quickly. Use the arrow key to move the camera angle as high as possible to reduce headaches while trying to find the Hulk in the sky. You get a new name for killing the Hulk for the first time - Training ABCs in horse hunting. Kraft You can make this food using soft whale meat that drops from regular humpback whales or crocodile meat. This dish will give you 1,000 pounds of hunting damage for 5/10 minutes with 30 minutes of cooling, so you can use once or twice for hunting a blue whale normally. Recipe requires Cooking Apprentice Level 1 and following materials 1x Soft Whale Meat or 1x Crocodile Meat 2x Vinegar 2x Dressing 5x Garlic Whale Meat Salad You need blue whale meat from blue whales to make this dish and Cooking skilled 1 (Professional 1 if you want a proc blue version). This salad will give you 10/15% of XP's life skills in 75/90 minutes. 1 (Professional 1 if you want a proc blue version) and blue whale meat. It produces a dish that gives 2/3 damage reduction and 8 dodging for 75/90 minutes depending on if you made a green or blue food option. It needs to be The following materials. 1x Blue Whale Meat 1x Honey Wine 4x Garlic 2x Salt 6x Mineral Water Keith Tendon zelier Is an Alchemy recipe that requires Pupil 1 (Skilled 5 if you want a proc blue version) and blue tendon whale from blue whales. It restores HP to 500/750 and MP/WP/SP to 300/500 depending on whether you have a green or blue version of the potion. To do this, you will need to place the following in the alchemy apparatus 1x Blue Whale Tendon 3x HP Medium Potion 3x Medium MP Potion 8x Peeled Water Whale Tendon Elixir This alchemy recipe requires a qualified one in alchemy (Professional 1 if you want a proc yellow version) and Blue Whale Tendons from Blue Whales from Blue Whales. This is one of the best defensive potions for siege/knot wars. This gives a 100/125 reduction in damage for 20/30 seconds with a cooling of 10 minutes. To do this you will need the next 1x Blue Whale Tendon 1x Blood Clown 12x Ash Sap 5x Clear Water 2x Clear Liquid Reagent Spirits Courage Alchemy recipe that requires a skilled one and blue whale oil from blue whales. This makes an elixir that gives all kinds of combat bonuses that lasts

for 20 minutes with 20-minute cooling (essentially not cooling down). To do this you need the following 1x Blue Whale Oil 3x Trace of Violence 6x Bloody Tree Knot 4x Clear Water 2x Clear Liquid Reagent Perfume recipe of Swiftness alchemy, which requires a qualified 1 and blue whale oil from blue whales. This is a version of the life skills elixir, giving a weight limit of 200 pounds, 20% Life XP, 5 percent attack rate, speed of collection 5 and 5 pounds for 20 minutes with 20-minute coolness. To do this you will need the following 1x Blue Whale Oil 4x Time Powder 6x Eternal Grass 4x Cleared Water 2x Pure Liquid Reagent Hulk's Elixir Alchemy recipe, which requires a skilled 1 and Hulk skin from the Runaway Hulk. This Elixir provides a lot of defensive abilities: All debuff resistance 10%, 15 pounds damage reduction, 100 Max HP, 5% speed moving for 20 minutes with 20 minutes of cooling. To do this you will need the following 1x Fugitive Hulk Skin ?x Trace of Chaos (supposed to be 4, but not confirmed) ?x White cedar juice (supposed to be 6, but not confirmed) ?x Cleared water (supposed to be 4, but not confirmed) ?x Oil corruption (supposed to be 2, but not confirmed) Fermented wine Hulk This is the ideal hunting food that lasts 60/90 minutes. This will give you 7 pounds for all attacks, 1 speed moving, recovery of 10 HP, and 700 pounds of hunting damage. It takes a professional one in cooking to make. To do this you will need the next 1x Runaway Hulk in Horn 5x Honey Wine 6x Date Palm 6x Leave Agent 6x Sugar Blue Whale Molar Earrings This molhar earrings One of the best earrings in the game and one of the reasons many players go to Blue Whale Hunting. You have to get a rare blue whale molar to plant blue whales and then do it in any tier 3 3 It provides 5 AP and 100 HP on-base and 2 AP each level of enhancement. To do this you will need 1x Blue Whale Molar 1x brass ingot 2x Polish Opal Fugitive Hulk earrings This earring is an alternative to Blue Whale Molar earrings but requires a rare drop-off of the Fugitive Hulk. It provides 5 AP, 50 Stamina/MP/WP/SP on the base, and then No.2 AP at each level of the raise. Much like blue whale molar earrings, it's also set up at Level 3 Goldsmith. To do this you will need 1x Fugitive Hulk in Shiny Claw 1x Brass Bar 1x Lunar Opal Opal bdo dully hunting guide
