ADHAN WATCHES (all cities around the world): Five high-quality sounds of Azan (Mecca, Medina, Kuds, Egypt, Riyadh). Azan's volume control is installed in all watch models. Azan's time is calculated exactly in line with all cities around the world. ALFAJR uses a local calendar or the most widely used calendar system for your city. Other standard taqweem systems are also available. AUTOMATIC FAJR ALARM : This unique feature allows you to wake up every day during the time of Fajr azan. For example; suppose you set the alarm for Fajr azan at 5:00 a.m. The next day, if Fajr azan becomes 5:01 am, then automatically this alarm will ring 1 minute later than the previous day. DAILY ALARM : In addition, the watch has a regular alarm that can be set to ring at the same time every day or according to your preferred days. SIBLE HOEST : The direction of The Sible (relative to the North) can be displayed. HIJRI AND GREGORIAN CALENDARS : The Gregorian or Hijri calendar can be displayed. The Hijri calendar follows the Gregorian date and is based on an astronomical moon seen in Mecca. TEMPRATURE DISPLAY : The temperature readings in Celsius are displayed. OTHER SPECIAL: Daylight, Time Saving option (for countries using this system). Gentle prayer reminder (when the azan sound is off). One-time alarm: In addition to Fajr and daily alarms, the ALFAJR watch includes an additional alarm (called a one-day alarm). It can be mounted on a ring for special meetings. Crescendo sound: All alarms have a gentle awakening sound that gradually increases. Walmart is here to help make every day easier.
