Airflight time: 3 hours, 48 minutes Gate to gate: 4 hours, 15 minutes Constant 500 mph: 3 hours, 57 minutes Open this map directly on Google Maps. More travel calculations get a hotel in Columbus, OH The total flight duration from Los Angeles, CA to Columbus, OH is 3 hours, 48 minutes. This is the average flight time in the air (wheels up wheels down the runway) based on actual flights taken over the past year, including routes like LAX to CMH. Covers all the time on a typical commercial flight, including takeoff and landing. If you are planning a trip, you should also consider the extra time for the plane to retreat from the gate and taxi to the runway, as well as reach the destination gate after landing. If you include this extra time on the track, the average elapsed time from gate to gate flying from Los Angeles, CA to Columbus, OH is 4 hours, 15 minutes. Finally, pilots may want to estimate flight time using an average flight speed for a commercial aircraft of 500 mph, which equates to 805 km/h or 434 knots. If you do not add extra time to increase or decrease the speed for takeoff and landing, then at constant speed your flight time would be 3 hours, 57 minutes. If you are booking a flight, be sure to check scheduled departure and arrival times. You should also consider airport wait times and possible weather equipment or delays. If you are trying to figure out what time you will arrive at the destination, you may want to see if there is a time difference between Los Angeles, CA and Columbus, OH. The calculation of flight time is based on the straight distance from Los Angeles, CA to Columbus, OH (as the crow flies), which is about 1,978 miles or 3,183 kilometers. Your trip begins in Los Angeles, California. It ends in Columbus, Ohio. Your flight direction from Los Angeles, CA to Columbus, OH is East (68 degrees North). The flight time calculator aswells the average flight duration between points. It uses the formula of the large circle to calculate the mileage of the trip. City: State of Los Angeles: California Country: United States Category: links related to cities City: Columbus State: Ohio Country: United States Category: links related to Travelmath cities provides an online flight time calculator for all types of travel routes. You can enter airports, cities, states, countries or zip code to find the flight time between two points. The database uses the long circle distance and the average speed of a commercial aircraft to find out how long a typical flight would take. Find your travel time to estimate the length of a flight between airports, or ask how long it takes to fly from one city to another. Which airlines fly direct from LAX Airport to CMH airport? Every month there are several companies offering direct flights from Los Angeles (LAX) to Columbus (HCM). Among the major airlines that providing LAX flights to CMH include:Virgin Australia - (VA) with 120 direct flights between Los Angeles and Columbus monthly Delta Air Lines - (DL) with 270 direct flights between LAX and CMH monthlyUnited Airlines - (UA) with 120 direct flights between Los Angeles and Columbus Monthly Southwest Airlines - (WN) with 360 direct flights between LAX and CMH monthly AAmerican Airlines - (AA) with 390 direct flights between Los Angeles and Columbus monthlyFrontier Airlines - (F9) with 30 direct flights between LAX and CMH monthly How long does it take to fly from LAX to HCM? The total flight duration from Los Angeles (LAX) to Columbus (HCM) is typically 9 hours and 30 minutes. This is the average nonstop flight time based on historical flights for this route. During this period, travelers can expect to fly about 2,595 miles, or 4,177 kilometers. How many flights are there from LAX to HCM per day? With 6 different airlines operating flights between Los Angeles and Columbus, there are an average of 1,290 flights per month. This equates to about 301 flights per week, and 43 flights per day from LAX to HCM. How many morning flights are there from LAX to HCM? American Airlines - (AA) has about 11 flights before noon, Starting with the oldest at 01:45 AM PST and the latest 11:30AM PST United Airlines - (UA) list, on average, 2 flights departing before 12:00 pm, where the first departure from LAX is at 5:34 AM and the last departure before noon is at 11:00 AM Southwest Airlines - (WN) has about 9 flights before noon , starting with the oldest at 06:05 AM PST and the latest 11:20AM PST Virgin Australia - (VA) has about 3 flights before noon, starting with the earliest at 05:50 AM PST and the latest 11:15AM PST Frontier Airlines - (F9) has about 1 flights before noon, Starting with the earliest at 08:19 AM PST and the latest 8:19AM PST Delta Air Lines - (DL) has about 6 flights before noon , starting with the earliest at 12:15 AM PST and the latest 11:45 AM PST How many afternoon flights are available from Los Angeles to Columbus? There are about 1 Delta Air Lines flights between 12:00 PST and 18:00 PST, starting at 12:00 PM PST and the last afternoon flight at 01:35 PM PST. There are about 1 United Airlines flights between 12:00 pst and 18:00 PST, starting at 12:35 PM PST and the last afternoon flight at 01:20 PM PST. Between 12:00 pst and 18:00 there are, on average, 2 direct flights provided by American Airlines, where the first departure flight is at 12:30 PM PST and the last departure flight is at 02:30 PM PST. There are about 2 Southwest Airlines flights between 12:00 pst and 18:00 PST, starting at 01:05 PM PST and the last afternoon flight at 02:50 PM PST. How many night flights are currently on sale from Los Angeles International Airport to Port Columbus International Airport? Delta Air Lines - (DL) lists 1 direct night flights averaged from Los Angeles to Los Angeles Australia - (VA) lists 1 direct night flights on average from Los Angeles to Columbus. How far is the flight from Los Angeles to Columbus? The calculated straight flight distance from lax airport to CMH airport is 2,595 miles, or 4,177 kilometers. What's the first departure time from Los Angeles to Columbus? The oldest flight departs from LAX at 12:15 am and arrives at 10:52 am at HCM. What is the last available flight from LAX to HCM? The last departure time of LAX is scheduled for 23:59 with the arrival time of 09:50 am in the HCM. The distance from Los Angeles to Columbus by plane is 1995 miles. This is the most direct air distance taken by the vast majority of flights. Flight time from Los Angeles to Columbus is 4 hours and 13 minutes. The time spent in the air is 3 hours, 50 minutes. These numbers are average. In fact, it varies by airline, with Delta being the fastest taking 4 hours, 13 minutes, and American the slowest taking 4 hours, 13 minutes. Delta and American are the airlines with direct flights from Los Angeles to Columbus. Southwest does not fly from Los Angeles (LAX) to Columbus (HCM). Keep in mind that the Southwest can fly to other nearby airports as they will often fly into the smaller ones instead of the larger ones. This is because costs are often lower to fly to smaller airports, and they pass the savings on to you. Our information is computed from the latest available data from the U.S. Department of Transportation. The average timeline contains the average time a flight spends in 3 stages. The first of these three stages is taxiing, which includes the time of the flight leaving the gate to take off. The second stage is in the air, which includes the time spent since the flight coming off the ground to play back at the end of your journey. The last step is taxiing, which is from when the flight lands to the flight that arrives at your gate. The average schedule also estimates on average when the flight will leave and arrive in relation to the declared departure time. Leaves Los Angeles at taxi time out time 15 minutes On air 230 minutes Taxiing In 6 minutes Columbus arrives 6 minutes early Flight Reliability Chart The reliability of an airline aswells how often airline flights on this route are cancelled or delayed more than 20 minutes. For example, from Los Angeles to Columbus, American is 79% reliable, which means that American flights are on time 79% of the time, and cancelled or delayed the remaining time. Arrival of normal airline flights Delayed* Flight cancelled Delta 91% 9% 0% American 79% 19% 2% Each airline takes a different time to fly between Los Angeles and Columbus, this is due to different operational factors on the ground, as well as the scheduling of aircraft. The flight time of each airline is in three stages that are described in the average Timeline section. There are also several operational issues that are included in the total below, but are not accounted for in one of the three steps. Airline Taxiing Out (minutes) In the Air(minutes) Taxiing In(minutes) Total(minutes) Delta 13 229 8 253 American 15 231 6 253 Flights Per Hour of The Day Flight Time By Day Chart This is quite self-explanatory, represents the number of flights that depart from the gate at a given time of day. The tricky thing here is that this is usually not an integer, since it is an average of more than 52 weeks. Partial numbers may indicate that a flight may be seasonal or may take off at different times due to different operational factors. Time count 11:16 0.16 0.4 10pm 0.52 10:00 0.42 0:38 0.11 0.11 0.48 Flights per month Chart The number of flights from Los Angeles to Columbus taking off in a given month of the year. This number changes because some flights are seasonal, and almost all flights have uneven demand in the year. Term count February 77 from March 68 75 April 72 July 80 July 86 August 83 September 73 October 61 November 81 Flights per weekday flights per day of the week chart The amount of flights from Los Angeles to Colombo taking off on a given day of the week. Some routes only have enough demand to sustain some trips per week, while others have many flights per day. This number is also an average throughout the year and therefore may not be an integer. Count of the day Monday 2.98 Tuesday 1.96 Wednesday 2.52 Thursday 2.87 Friday 2.88 Saturday 1.4 Sunday 2.98 Flight by Airline (per Week) Flights by Airline Chart How many times an airline flies this route in a week. Different factors play on how often a carrier chooses to fly on a given route, including the need to connect different routes and

demand. Airline flights per week American 0 Delta 0 Flight time per hour flight time per hour of the time of the time table the total flight time varies in each hour of the day due to factors such as airport traffic. More flights from an airport can cause longer taxi or taxi times. See the description of the average timeline above for a deeper discussion of each of these times. Time Taxi Out(minutes) On air(minutes) Taxi In (minutes) Total(minutes) 11pm 15 235 7 260 5pm 14 232 7 254 10pm 13 228 8 253 10 am 16 230 5 251 4pm 13 229 6 248 9pm 13 218 7 237 9am 16 234 5 255 * Late over 20 minutes. All of the above data are median or average as appropriate. Appropriate.
