

## Pharmaceutical Program for OTC & Rx

This program is intended to offer an easy and simple solution for destruction of your unwanted Non-Hazardous Pharmaceuticals for healthcare, pharmaceutical, government, and research industries for OTC and Rx.

Triology's Mailback program **DOES NOT ALLOW Schedule I Controlled Substances or any other illicit or dangerous substances, hazardous wastes or Regulated Medical Waste (including sharps) to be shipped to Triology as a part of this program.** Every user of the Mailback program must ensure that the materials they place in the Shipping Package complies with the rules and restrictions of the carrier.

All materials shipped to Triology under this program **MUST BE PRE-APPROVED** by Triology and accompanied by a properly completed shipping document which will be provided by Triology.

### How it Works in 8 Simple Steps

1

You purchase a bucket from Triology for the OTC & Rx pharmaceutical waste

2

Triology will then send you a box with everything you need in it.

3

You receive the box and all your supplies

4

You keep your bucket and box until it is full

5

When your bucket is full, you then use all the included supplies to package it back up for shipment

6

Go online and schedule FedEx pickup

7

Triology receives the box from FedEx and stores it in our DEA approved cage unit the next scheduled destruction date.

8

Triology witnesses the destruction and sends you a Certificate of Destruction
