The publication examines in detail the device of the car, given recommendations for operation and repair. A special section of the guide is dedicated to travel malfunctions, how to diagnose and fix them. The guide contains more than 2,000 color photos, detailing the process of step-by-step repair of the car. The manual contains subsections describing the maintenance and repair of units and systems, containing lists of possible faults and recommendations for their elimination, as well as instructions for dismantling, assembling, adjusting and repairing Mitsubishi Lancer units and systems using a standard set of tools in the garage. Mitsubishi Lancer IX's demolition, assembly, installation and repair instructions for auto parts and systems using finished parts and assemblies are shown inoperable and illustrated in detail with color photographs and drawings that make it easy for even a novice motorist to understand the repair work. All repairs are divided into Mitsubishi Lancer systems and units, where they are carried out (from the engine to the body). If necessary, operations are provided with warnings and useful advice based on the practice of experienced motorists. In separate sections of the publication are instructions for Mitsubishi Lancer, maintenance recommendations, detailed circuits of electrical equipment (wiring scheme) of the car. These workshop guides will be useful to owners of Mitsubishi Lancer cars, service service specialists, repair shops and service stations.
