This can greatly simplify your life and save the space of your room! Just plugs it in, adds a little water and turns the handle into an appropriate mode, and here you go!♥ DOUBLE BOTTLE DESIGN and EVENLY WARMING: Our baby bottle warmer can heat two bottles at the same time, you can warm breast milk and water for the formula at the same time. This provides the optimal feeding temperature for your angel. A circulating water bath can heat the bottles more gently and evenly, which can protect precious vitamins and nourishes from damaging elevated temperatures.♥ BOTTLE STERILIER and BABY FOOD STORE: It can keep food in additive at 158 degrees Fahrenheit, in addition, it can keep warm for 24h and is ready throughout the day, especially at night. Steam sterilization can eradicate 99.9% of harmful bacteria at 212 degrees Fahrenheit for bottles, nipples and other small children's accessories. ♥ BPA FREE and EASY OPERATION: Our baby warmer bottle is made from free and high-temperature material. You don't worry about the elevated temperature hurting the product.♥ ACCESSORIES: Comes with tongs and a brush. No need to buy other accessories when you own our bottle Beleef baby warmer. Beleef baby bottle warmer makes your life easier! About the product: Most kids tend to have their bottle when they wake up, but you never know their waking time, so you don't know what the right time is for warm bottles. In most cases, the rest of the milk will be poured or wasted. Do you have the same problem? If you have our bottle warmer, your child will no longer scream for food. Because it is warmer can evenly heat the bottle and keep the optimal feeding temperature for the baby, so you can feed the angel whenever you want. As for heating time, depending on the environmental factor, such as sea level rise, atmospheric pressure, bottle temperature or room temperature, the entire estimated time is approximate and may vary slightly. Milk can be heated gently and evenly from frozen, refrigerator or room temperature. If you heat the bottle from the refrigerator, it is better to include the handle in the mode Heat food for 1-2 minutes, and then return to Warm milk to speed thawing.
