A group of teenagers, who call themselves Gladers, are left in a strange place they call Glade. Glade is surrounded by four doors, leading to the Maze, which closes every night at sunset and open in the morning. Beyond the walls of the glade is the ever-changing Maze, populated by fearsome, biomechanical creatures, known as Grievors. Every month, a newcomer, nicknamed Greenie, joins the Gladers, sent by an elevator they call Box. Every newcomer has all previous memories (except language and other common things) wiped out. All they remember is their names. They are seen by large mechanical beetles, called beetle leaves belonging to their creators. Each beetle leaf has the word WICKED stamped over its back. The ultimate goal of gladers is to find a way out of the Maze. To do that, some Gladers called the Runners venture in the Maze every day, to map it out in an attempt to find a pattern in the Maze that would lead them to find an exit. The main character, Thomas, arrives in Glade. Shortly thereafter, a girl is sent up through the box, arriving in a coma and bringing the message: Everything will change. She carries a note saying she is the last newbie to get through the box. Thomas becomes an object of reverence, suspicion and great curiosity to Gladers because of his ties to all the strange in Glade, driven heavily after he becomes the first to survive a night inside the Maze. Along with new friends, like Chuck (the second newest newbie), Newt (second in command of gladers), and Minho (Keeper of the Runners), he begins to solve the mystery of maze and search for a way out. [3] *The Scorch Trials* Main article: *The Scorch Trials* *The Scorch Trials* is the second book released in the series, on September 18, 2010. Gladersen thought getting through the maze it was; however, they did not know that their world was burned by the sun. Gladers didn't know they were going to have to fight for their lives again. Burning and naked, the earth is a wasteland, its people driven mad by an infection called *The Flare*. Instead of freedom, Gladers must face another Trial. They must survive *Scorch* and face wicked's challenges. *The Death Cure* Main article: *The Death Cure* *The Death Cure* is the third book released in the series, on October 11, 2011. In the last book in *The Maze Runner* series, Thomas is locked up in solitary confinement for four weeks. When he is released, and Deputy Director Janson (*Rat Man*) reveals to him and the other subjects (including Group B) that there is no cure for *Flare*, but that most of Gladers and Group B are immune. He warns them that many people around the world hate them because of their unnatural resistance to the *Flare*, and that if they flee they are at greatest risk will be in greater danger. Later, the memories of all gladers and group B members are restored and they flee. Thomas, Newt, and Minho refuse restoration and they later escape with Jorge and Brenda. They then go to a town and have WICKED's units in the throat disabled. They join forces with *Right Arm*, an organization that fights against WICKED. *The Kill Order* Main article: *The Kill Order* *The Kill Order* is the fourth book released in the series, on August 14, 2012. It is the first novel in narrative order, as before the events of *The Fever Code* and 13 years before the events of *The Maze Runner*. [4] It is followed in narrative order by the *Fever Code*. Of the novel, Dashner stated that he wanted to expand the world, but did not focus on the main characters in the main *Maze Runner* trilogy. [5] He also stated that he had originally planned to write a prequel for the series, but that the plans did not become official until he had finished the third book in the trilogy. [6] Before WICKED was formed, before Glade was built, and before Thomas enters the Maze, solar flares hit Earth and humanity was ravaged by disease. Mark and Trina were there when it happened, and survived. Now a disease of anger and madness rages across the eastern United States, and there is something suspicious about its origins and it is mutating, and all the evidence suggests that it will bring humanity to its knees. Mark and Trina are convinced that there is a to save those who are left living from sinking into madness. [citation needed] *Maze Runner Files* *The Maze Runner Files* is a companion book to *The Maze Runner* series. It was released on January 1, 2013 as an e-book. It's 50 pages long. The book is divided into three parts: *Confidential Files*, *Recovered Correspondence*, and *Suppressed Memories*. It contains information about *Flare*, WICKED and some of Gladers. It also reveals events like Thomas and Teresa's first call, Minho's Phase Three Trial, Frypan's past, emails between wicked correspondents, and more. *The Fever Code* Main article: *The Fever Code* *The Fever Code* is the fifth book released in the series, on September 27, 2016. It is the second prequel and the fifth installment of *The Maze Runner* series. It is the second book in narrative order, preceded by *The Kill Order* and followed by *The Maze Runner*. The book takes place between the events of the *Order of Death* and immediately before *The Maze Runner*. The novel is written from the various points of view in *The Gladers*. The book focuses primarily on the training that Thomas and the others undergo before being sent into the Maze, but also explores the relationships between gladers before they underwent *Swipe* who suppressed their memories, describing *The Purge* as briefly mentioned in *The Death Cure*, and the life of Gladers before Thomas' introduction into the maze, as he during the events of the book works for WICKED. This book provides a background of the series, providing the reader with information that they have asked themselves. The book ends with the final moments before Thomas enters the Box, when he is betrayed and sent into the Maze at the beginning of *The Maze Runner*. *Crank Palace* *Crank Palace* is the sixth book released in the series, on August 25, 2020. Novella is centered on the character Newt and takes place during the events of *The Dead Cut*. It was first released as an audiobook on August 25, 2020, while the printed copy and ebook version will be released on November 23. Critical reception Book retailer Barnes & Noble included *The Maze Runner* book as part of its showing of new authors for late 2009 and early 2010. Kirkus Reviews wrote, *Hard to put down, this is clearly just a first installment, and it will leave readers dying to find out what's next.* Jessica Harrison of *Deseret Morning News* labeled *The Maze Runner* as an exciting adventurous book for kids aged 13+ that will get readers' hearts pumping and leaving them asking for more. She noted that it starts a little slow but as it matched Thomas' confusion and took off as he became more accustomed, she wrote that it's almost as if Dashner is easing the reader into what becomes a fast-paced, nonstop action. But she thought the only downside was the fictional slang that although it feels realistic and fits with his characters, it gets old pretty quickly. On the plus side, however, it is used so often that the reader almost becomes desensitized and learns to ignore it. *Film atherings* Main article: *Maze Runner (film series)* *The Maze Runner*: Development for the film began in January 2011 when 20th Century Fox bought the film rights to Dashner's novel series.
