Amway business plan pdf in hindi

Funkz's Word and Google. Kinsey Promes, quincy Promes, Funkz and Google. It is one of the best products in the world, am Hindivay is now one of the best products in the world, not in one or two countries, but in more than 450 products in about 80 countries. In 1998 the company came to India and then does its business with only 6 products, with some prominent people in the country afraid to believe it. Today, the same people earn billions of rupees from amway to home. Even after that, those who joins also earn amway se ghar baithe paisa, they also make money in many crores today. Today is the day he lined up to join. Women working at home, unemployed and so on, earn thousands of rupees less by joining them. Where 3 years ago he had to be paid to join him, he does not have to pay a penny to join amway today. You can start a business by buying only one product. But when it comes to joining it, how much of a percentage of profit (amway kitna commision deta hai) is available in this business from amway. Amway se business carne par Kitna persent kis level par milta hai, i Yun kahen ki amway business plan High. I did amwayhindi.com only for a man who does nothing in my country or women and daughters who sit vacant in the house can start earning something. I'll teach you how to do business with the amway. I've already explained all the details on how to join the amway. To read this, you can see the link below. Read: How to Become a Member of Amway. You don't have a dime to join Amway before you join it, you can also understand the amway business plan as you are going to do business now. So, in today's article, I'll explain to you how money earns from amway to business at home. Amway's business plan in Hindi: It's important to plan your business before you do it, here's how much amway gives you. So first let's tell you who gets the commission when you buy any simple product. Factory - Regional Distributor - District Distributor - Stockist or Wholesaler - Retailer This is the smallest ladder, there are more people in the company who take commission at every turn and finally this product comes to you. One of my friends Many companies that have many companies send medicines, of which 60% are worth more than the reciprocal price. Since they have a cough drug on Rs 8 in their bill and which they sell for rs 15 to 20, while the MRP product is about 70, I want to keep the company and a friend confidential, so I can't name it. Now you think that the product that comes to Rs. 8 is available for us in 70 or say about 10 times the profits. Although this is not the case in amway, the amway product is only followed by the ABO, and it is entitled to store and sell the product at every level. Amway and ABO - Customers now you can draw two conclusions here that if the product comes out of the factory for Rs. 8, which has the cost of transportation and taxes how much it is prepared, and what quality the product will be produced in such low quantities. While amway gives the ABO a fix commission, which is 8% percent. Whatever the income is next, it is on the performance of another ABO associated with you. Let's talk about the commission from amway now. Amway ABO's performance depends on PV and GPV. Now you may be wondering what it is. and GPV, I'll just give you a little insight into what's going on. I'll tell you in detail. PV (Product Value): The value of the product means how much value the product has to some MRP. Amway's business plan currently receives 1PV for Rs 96. If the product is priced at Rs 960, you will get 10 PV. In terms of these product values, amway has set its commission level, understand the chart below to better understand. Amway New Commission Levels: From September 1, 2019, Amway has improved its commission level to earn more for its customers. Below will see a table of some commission levels for you. Commission PV 3% 200 6% 600 9% 1200 12% 2400 15% 4000 18% 7000 21% 10,000 This chart shows commissions based on pv collected month and full year. GPV is called group product value. This means a differential commission. you earn also added to the ABO associated with you, you will understand this by example below. BV (Business Volume); Method. done by BV is called volume business. Under today's amway rule, 1BV has been reduced to 80 Rs (the first was 76 after the GST came into force, equivalent to the ABO not in any way loss). Let's now see how we will calculate each month of the commission. Calculate the ABO Commission: If you are an ABO (Amway Business Owner), you get the opportunity to earn commissions in many ways if you want. And if you buy a product, you are first given a wholesale commission, which is 8% now, ie on MRP, you already get the product at a lower rate of 4-8% (4-7% when the GST comes, which was previously 8%), so we will take it as 5% average to add commission, why, in addition, the amount of PV you earn according to the chart above, by ordering amway to your bank account on the 15th of the following month. Let's take this as an example. Since the gst, Amway has made some changes to its business model. In which the money back was added further. Those who buy 100 photovoltaic or more products in ABO per month will be given a cash spin of 7%. This was done because the distributor's commission was reduced after the gst comes in, which does not result in any losses for the ABO. Thus, the ABO has won since the gst took effect. Suppose you buy or sell 100 photovoltaic products this month, add how much you will win - you are at 6% according to the chart above, you are sent to your bank account on the 15th of the following month. When you buy these products, you already get a wholesale discount of 8%. Wholesale discount of 5% (pv X 80 X 5% - 400 Rs Cashback Discount 7% (100 PV X 80 X 7%) - 560 Rs Monthly Commission 6% (100 PV X 80 X 6%) - Rs 456 General Commission - Rs 1416 This commission is yours, in which you will work, but let me tell you that Amway gives you a chance to earn more along the way. that when an amway member consists of your ABO number, he joins you, and whenever he makes a purchase, his commission is also given to you, such a commission is called a differentiated commission. Now, a differential commission is also added from here. Let's say you added five members with Amway, and your friends either bought or used 100 pv and your Gpv 600. If you earn 600 PV at 9%, you will deduct from your Gpv level and your own level to get a differential commission, it will tell you a differential commission. So let's see how much you're in operation. Wholesale discount 8% (100 pv X 80 X 5%) - 400 Rs Cashback Discount 7% (100 pv X 80 X 7%) 0 X 9%) - Rs 720 Differential Commission (9-6) 3% (500 pv X 80 X 3%) - Rs 1200 General Commission - 2880 Rs Differential Commission, which is currently on the way. Top only one leg, if you have three legs below you, you get the same differential commission of three legs. Similarly, the more ABO you create, the more you win. Based on the same monthly performance, Amway announces you as a silver, gold, platinum, emerald and diamond member. You will be informed on how you can achieve this. You will continue to receive all information related to the Amway business plan in Hindi 2019, if you have any difficulty in understanding this, you can ask us questions through comments amwayhindi@gmail.com or WhatsApp at 91-848813864. If you are thinking about joining Amway, you can make it available to us to become an amway certified distributor, and make a profit by placing your own product orders. If you don't want to join now, you can order the product you will be sent to this product through Amway.
