

The Jimi Hendrix Experience - Crosstown Traffic

[Verse 1]

You jump in front of my car when you
You know all the time that
Ninety miles an hour, girl, is the speed I drive
You tell me it's alright, you don't mind a little pain
You say you just want me to take you for a ride

[Chorus]

You're just like crosstown traffic
So hard to get through to you
Crosstown traffic
I don't need to run over you
Crosstown traffic
All you do is slow me down
And I'm trying to get on the other side of town

[Verse 2]

I'm not the only soul who's accused of hit and run
Tire tracks all across your back

I can see you had your fun
But darling can't you see my signals turn from green
to red
And with you I can see a traffic jam straight up ahead

[Chorus]

You're just like crosstown traffic
So hard to get through to you
Crosstown traffic
I don't need to run over you
Crosstown traffic
All you do is slow me down
And I'm trying to get on the other side of town
