WARNING: The following procedure prescribes critical repair steps required for correct restraint system operation during a crash. Follow all notes and steps carefully. Failure to follow step instructions may result in incorrect operation of the restraint system and increases the risk of serious personal injury or death in a crash.

NOTE: Removal steps in this procedure may contain installation details

NOTE: Left hand (LH) shown, right hand (RH) similar.

Name	Bronco Bracket	F150 Bracket	Spare Parts	Fixing Plate	Fixing Plate	Fixing Plate
Serial No.	039-0255520 001-0000	039-0255520 002-0000		038-0255000 001-0000	038-0255000 003-0000	038-0255000 017-0000

Pull Overhead console assembly down carefully, release the clips and remove the windshield header trim panel.

2. Unplug the three connectors.

3. Remove the handle 2 covers and screw

4. Take out the handle part from the A Pillar trim panel.

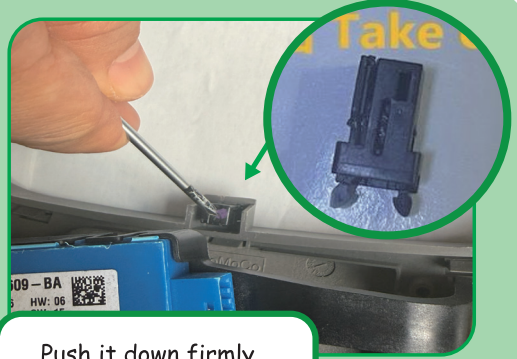

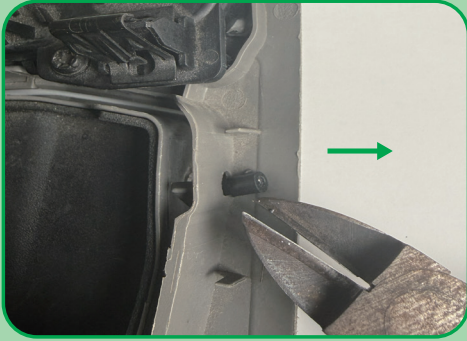

5. Take out the handle part from the A Pillar trim panel.

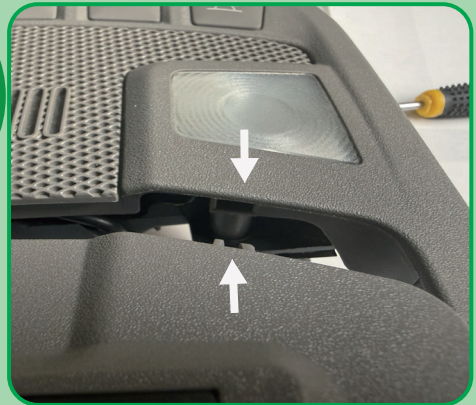

Push down and right to take glass holder out

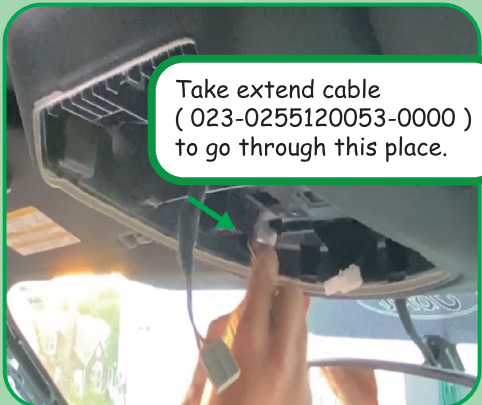

Push it down firmly

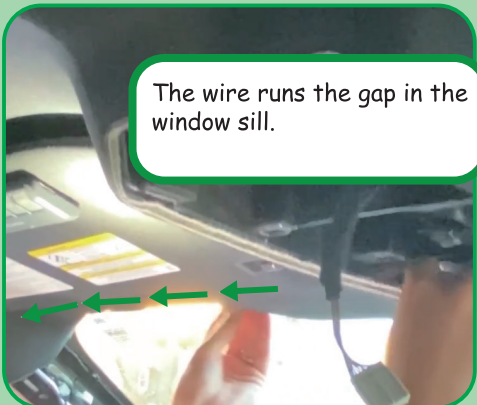

6. Remove and disconnect driver and passenger visors & visor clip.

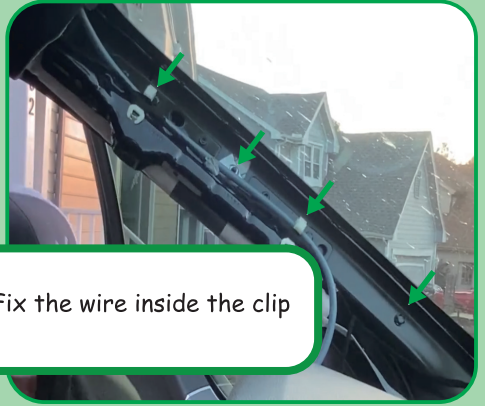

7. The extend cable (023-0255120053-0000) wire connect.

Take extend cable (023-0255120053-0000) to go through this place.

The wire runs the gap in the window sill.

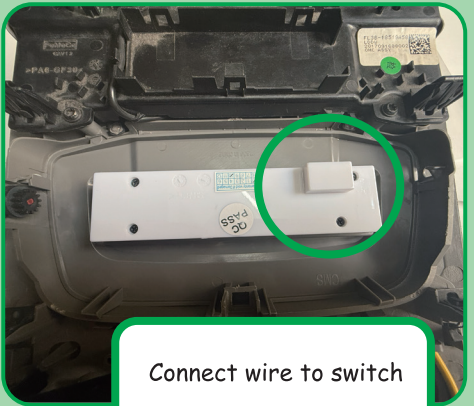

Fix the wire inside the clip

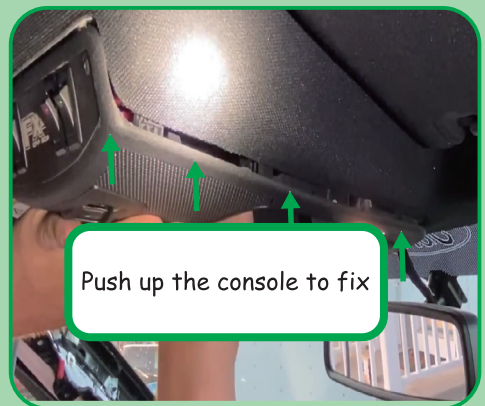

The wire goes into this gap.

From this hole, to take wire into engine compartment

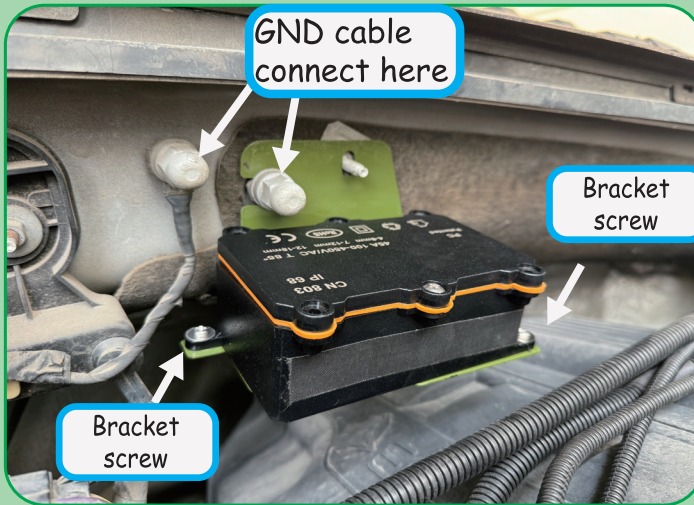

Connect wire to switch

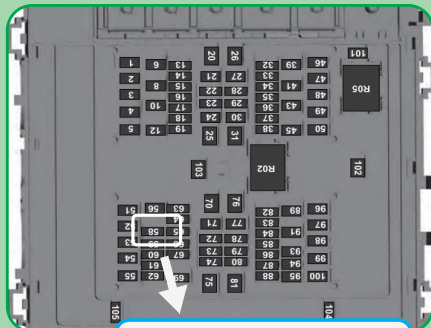

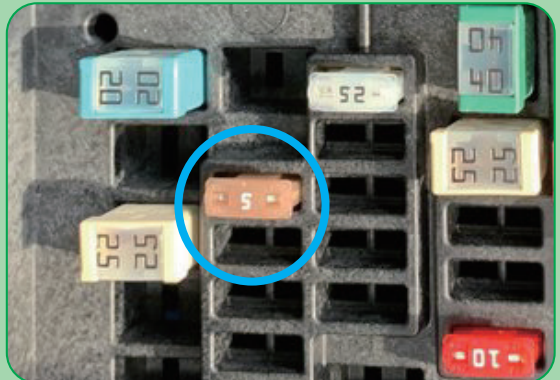

Push up the console to fix

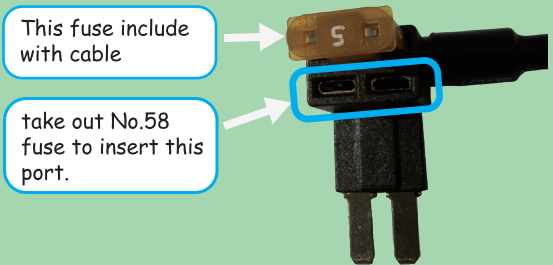

8. Please take cable (023-0255120053-0000) to engine compartment, and connect with relay box.
Connect GND cable to metal. with ground.

9. Connect the Fuse cable from relay box to Body Control Module C (BCMC). Take out No. 58 micro2 fuse, insert into our connector port. Insert our cable into No.139 port.

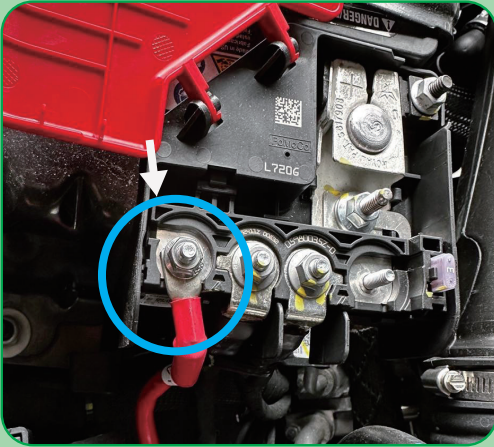

No.58 Fuse Micro2 5A
USB Smart charger, USB Charge Port

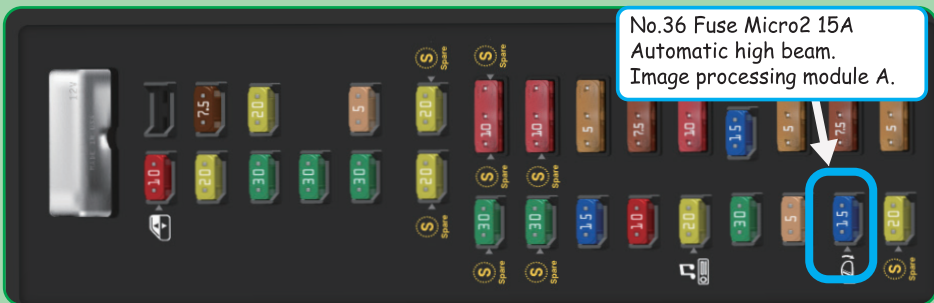

This fuse include with cable

take out No.58 fuse to insert this port.

10. Connect Power cable from relay box to Battery.

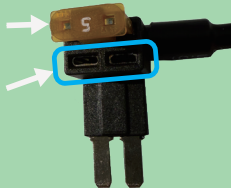

11. Use ILL wire (023-0255120054-0000) to connect extend cable (023-0255120053-0000) ILL wire, then use ILL cable to connect fuse box under steering. Take out No. 36 micro2 fuse, insert into our connector port. Insert our ILL cable into No.36 port of fuse box. Note: if you don't connect the ILL cable to fuse box, the switches light will be always on, can't switch according to car light.

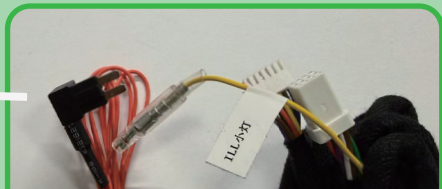

No.36 Fuse Micro2 15A
Automatic high beam.
Image processing module A.

This fuse include
with cable

take out No.36
fuse to insert this
port.
