Jupiterimages/Comstock/Getty Images Coleman is a company best known for its wide range of camping and outdoor equipment. Coleman also makes a watch aimed at outdoor lovers. The watch has a sporty fabric strap with an attached compass, and is waterproof at a depth of 50 meters. The watch also features a double alarm, a countdown timer, day and night brightness, and date of day. You can set the date on your Coleman Nightsight digital watch in no time. Press the mode button (at the bottom left while looking at the clock) until you reach timing mode. Press the upper left button until the seconds flash. You can adjust the seconds by pressing the upper right button until the correct seconds are displayed. Press the lower left button to move to the hour digits. Set the times in the same way. Press the lower left button until it reaches the date digits. Adjust the year first by pressing the top right button until the correct year is displayed. Press and hold the top right button to speed up the process. When the correct year is displayed, press the lower left button to move to the month. Press the top right button until the month is displayed correctly. Press and hold the button to scroll through the months quickly. When the correct month is displayed, press the lower left button to set the date. Press the upper right button to scroll through the dates until the correct date is displayed. Press the upper left button when you are satisfied with the date setting. The day of the week will be automatically corrected to match the date settings.
