Some of the popular game hacker apps were Lucky Patcher, Cheat Engine, SB Game Hacker, etc. All these, Cheat Engine is the most popular, and it works well with online and offline games. Cheat Engine Android App is used to hack the in-game resources. It allows users to bypass the default game values in an Android smartphone. It is a little different from all other game modifiers because it allows you to play with the apk file. The app is massively popular among Android players, but sometimes cheat engine doesn't work. At this point, Android users are looking for Cheat Engine alternatives. So, if you are also looking for the same, then read the right article. In this article we will share some of the best cheat engine alternatives for Android in 2020. These apps can be used to modify the apk file of each app. So, let's look at the best cheat engine alternatives for Android in 2020. 1. Creehack Creehack It is one of the most popular game modifiers for Android smartphones. Compared to Cheat Engine, Creehack has a superior user interface, and it's easy to use. The good thing is that the app works on both online and offline games. With Creehack, you can easily change the game file to get unlimited game resources such as unlimited tokens, unlimited points, etc. Game Guardian GameGuardian For those who don't know, Game Guardian is one of the most advanced game modifier app available for Android smartphones. Just like Cheat Engine, Game Guardian works on online and offline games. However, Game Guardian needs a rooted Android device to reach its full potential. It can help you bypass the game restrictions. 3. SB Game Hacker SB Game Hacker If you are looking for an app modifier that allows you to bypass in-app purchases for free, then you need to try SB Game Hacker. With SB Game Hacker, you can easily bypass the limitations in the game. On the flip side, however, SB Game Hacker is only compatible with offline games and does not work on unrooted devices. 4. Gamecih GameCIH This is pretty much similar to Cheat Engine when it comes to the features. Gamecih is one of the advanced game hacking app for Android smartphones. With Gamecih you can easily change different variables of games. What is more useful is that it is fully compatible with popular online games. 5. XMODGames XModGames As the name of the application says, XMODGames is an app that lets you create a modified version of any app or game. After creating a mod file, you can edit the game data. If you know how to bypass the app restrictions, then you can use XMODGames to get unlimited in-game items such as unlimited coins, unlimited gems, points, etc. 6. Game Killer Game Killer It is one of the top-rated Cheat Engine Alternatives list that you can use today. The great thing about Game Killer is that it is compatible with both online and offline games. However, the app requires root access to make changes. Game Killer makes it easy to change the game data file. 7. Lucky Patcher Lucky Patcher Gut, Lucky Patcher Patcher by far the best game hacker app on the list that is currently used by millions of users. Compared to Cheat Engine, Lucky Patcher offers users more features and options. When we talk about the features, you can deal with Lucky Patcher game restrictions, block advertising, etc. It works with all the popular apps and game out there in the Play Store. 8. LeoPlay Card LeoPlay Card It is not as popular as Cheat Engine, but it does its job pretty well. LeoPlay Card only works with the game. With this app you can easily bypass the gaming resources such as coins, gems, unlimited life, etc. However, LeoPlay Card only works with offline games and requires root access to make the changes. 9. Freedom App Freedom Well, Freedom App is a little different from any other app listed in the article. It follows an illegal approach to get things done. To help you use free purchases, Freedom App uses some nasty techniques like fake cards, etc. Using the Freedom app would cause many legal problems and eventually lead to an account ban. 10. Bots/Macros Bots/Macros We know that bots/macros do not come under the game hacker apps. Nevertheless, they could be useful. Let's admit that automation is going to work with every day. Thus, bots/macros can be used to automate the task of farming game items such as coins, gems, cultures, etc. Most of the games we play these days ask us to see an ad to use free game items. This is where bots/macros play their part. It can automate some processes to help you achieve what you want. So, these are some of the best cheat engine alternatives in 2020 that you can consider.
