The application offers three interactive types of pages that adapt the level of difficulty to your skill level. It adapts according to your type of English (American/British English/Oriental), your text editing software (Apple Pages, Google Docs, Microsoft Word), your type of keyboard (laptop/mobile phone), your number of fingers, and your finger movement speed. It's also possible to set custom images, audio files, and fonts. The application is dedicated to the beginner and intermediate classes. It guides you step by step through a large number of exercises. It covers all the basics of typography and keyboard shortcuts, and also teaches you about formatting and styles. TypingMaster 11 is both a fun and useful app to learn how to type faster. Requirements - Free of charge - English version only - Windows OS See [How to get it]{.ul} for more details on how to get it. Future releases ===== TypingMaster 11 is under active development. Each new version of the application will
