functionality should appeal. This feature makes it easy to add star ratings to your content, along with custom review criteria. The Herald is a feature packed With WordPress theme that anyone who creates content rich news or magazine style website will appreciate. Read more / Download Demo8. HotNewsHotNews has been designed with site speed in mind in order to help rank your site in search engines and improve user experience. There are two completely different layouts to choose from, with one design more suited to those who create viral content sharing website, while the other design will appeal more to those posting regular blog posts and news articles. Whichever layout you choose, both options make it easy to display AdSense advertising on your site, with dedicated spaces in a range of sizes located strategically throughout the theme. Other features include the ability to create unlimited color schemes to fully personalize the website, integrated social media sharing buttons, and a selection of custom widgets. Like HotNews from the MyThemeShop team, it can be yours, along with 60 other themes for as little as \$67.More Info/Download Demo9. AdmaniaAdmania has recently been updated to take full advantage of the latest version of the WordPress editor. While Admania has been around for a while, it has just updated not only to bring its templates fully up to date, but also to ensure that it works with the new editor of the WordPress block. In practice, this means you can use all the blocks that come with the default WordPress editor to insert useful items on your pages. Not only that, but Admania also now comes with a widget based on the homepage builder interface, which gives you complete control over how this most important area of your site looks. This theme now has 16 different layouts, each of which has been optimized to not only look great, but also generate most clicks on ads from your audience. Whether you want to create a blog, magazine website, or online news portal, Admania has several options for each type of website to choose from. One of the most interesting features of Admania is the advertising manager, which allows you to add and edit ads through a live front editor. Thanks to this, you can see how your ads will look while working on them, instead of saving the control panel settings and then updating your site to see them in action. Through the ad manager, you can also control exactly where each ad is displayed on your site, such as the homepage, blogs, and other parts of your site. There's the ability to display advertising too, ensuring that your monetized content is always visible. With features such as ad blocker and ad rotation support, Admania is a sophisticated AdSense optimized WordPress theme. Read more / Download Demo10. Magazine Magazine Pro is from StudioPress and is the children's theme for the ever-popular Genesis Framework. Not only does Magazine Pro have a great looking design, but it comes with a selection of page templates that make it easy to apply a range of layouts to your posts and pages. There are also four color styles to choose from as well as a responsive design. Clean Design Magazine Pro will make your content and advertising stand out, helping them get the attention of your visitors. Read more / Download Demo11. NewsmagNewsmag is another Google AdSense WordPress theme for the news and magazine site. Newsmag is a popular option that has racked up about 10,000 sales since its initial release back in 2014. Although available for several years, Newsmag is regularly updated throughout this time, ensuring this theme always has a completely modern look and feature set. Now that version 3 Newsmag is available, you'll have access to a range of new features to help your site succeed. As part of the new design, integrating content from YouTube on your site is now even easier than ever before. Using videos along with your written content can really help you update your news or magazine website with not much extra effort required. You'll also get more layouts and templates to choose from when you publish your articles with the latest version of the Newsmag theme. But just like before, you can still customize any of the pre-built content using the included Visual Composer drag and drop page builder plugin. When it comes to monetizing your site, Newsmag includes an intelligent advertising feature. Thanks to this, you get 10 predetermined up spots to use. Each seat has been strategically placed in content layouts for the highest clicks through bets possible. Just insert your AdSense code once. Then relax and let Newsmag control when and where your ads are displayed. Newsmag has gone from strength to strength since its initial release and is now one of the most powerful and feature-rich AdSense optimized WordPress themes available today. Read more / Download Demo12. RedmagRedmag is a theme focused on creating entertainment news sites that are optimized for AdSense.If you want to create a blog, news, or other type of content rich website that is monetized with Google AdSense, Redmag certainly meets these criteria. To help you make more money from your content, this theme is well optimized to display pay-per-click ads from networks like Adsense. One example of how Redmag can help you earn more from your traffic is the number of advertising places located around the theme. With great options to control how the advertisement is displayed on your site, you'll have a better chance of finding a find that works best with your content and audience. When you create a content site with Redmag, you get three different home page layouts to choose from. Although they are different, they all share a long-term design form that will show a large number of your articles on the home page of your site. Hopefully, with this type of layout, you'll increase the likeliness of your visitors by clicking up one of your internal pages. When they click on an article, or when they arrive at your site through an internal page, they will see a beautifully formatted page that includes text, images and ads, depending on your preferences. Because Redmag comes with a number of one-page templates for your articles, you can choose the right layout for each individual piece of content. To make sure that your site has the same features as the major players in the entertainment news space, Redmag comes with lots of useful widgets. Some examples include widgets to display your trending articles, the most popular articles and some of your hottest videos. Redmag AdSense locations are strategically positioned for more clicks and less negative impact on the user experience. Read more / Download Demo13. BestBest is another quick download of the WordPress theme from MyThemeShop, which is focused on increasing the site's speed and high click advertising through rates. The theme comes with a good selection of styling options, making it easy to customize in order to suit your branding and the type of content you post. Other features of the best theme include a parallax scroll, a floating navigation menu with integrated MegaMenu functionality, and several layouts of a single post. In addition to being completely responsive, the content slider also supports touchscreen interfaces so that mobile users can easily scan your posts. New WordPress users will appreciate the video lessons and extensive documentation. Read more / Download Demo14. TruemagTruemag is a magazine style WordPress theme that has been optimized for those monetizing their site with advertising, especially those who use Google AdSense.The advertising spaces come in a wide range of shapes and sizes, with all the most popular options covered. These include side ads, space under the headline post, over the main content area of the post, and a sticky sidebar widget that is always on display as readers scroll down the page. Truemag also uses a responsive layout to ensure that the ads on your site are properly fed to your visitors, no matter what device they use. Other features of this magazine layout theme include the ability to use width or box layout, choice of color skins, and strong integration WooCommerce. To make it easier to show relevant content and advertising in the side zones of the site, this theme allows you to create several side panels, with the ability to accurately determine posts they are shown side by side. If you're creating a website with lots of content and a busy publishing schedule, then this magazine mock WordPress theme gives you many options covering how the ad is displayed. Read more / Download Demo15.
