time I use Reflection. Can anyone explain me what's going on here? A: You don't need to load the class before using Reflection.

Just the property: `var property = typeof(Properties).GetProperty("Name");` Joe Biden arrived at the office Thursday with a decision to make: Which friend would he like to sit on the board of the U.S. Climate Alliance, which he founded in order to put pressure on China to agree to stricter climate change rules. The former vice president had some tough choices to make: He is still weighing which friend he'll go with, he said. But Biden, who was on a media tour to promote his climate policy plan, threw the question back to the media: Will any of them get on board? "Not right now," he said at a news conference at the office, before adding that some of the people who made the most sense are "familiar to you." Biden's policy plan calls for creating a climate alliance, with roughly a dozen wealthy countries including China, to discuss cutting the amount of carbon 520fdb1ae7
