No problem! This new edition of iGO Navigation, is specially adapted to the conditions and road conditions in South America. And it's 100% offline. So you have nothing to worry about. Customize your driving experience Do you have the right app for your driving experience? Let the iGO Navigation app help you choose the perfect setting for your car. 3D maps, 3D rotation, customizable landscape, face and rear camera, heads up display, tilt and voice controls. Save your battery and get where you want to go iGO Navigation uses less energy than other navigation apps. In fact, there are apps who go off-line when you're driving. So you'll be able to recharge your battery while you're driving. Join our community of drivers and be in the know We're listening to you and we're always improving iGO Navigation. So you'll always find the best experience. Keep in touch with your fellow drivers on Facebook and Instagram. And follow them on Twitter for the latest news on iGO Navigation and what's happening in the car community. Do you need help? Call us You can call us anytime for help, support or simply to say hi. Have you got a feedback? Or a suggestion for improvement? We're listening! Call us on 001-49-20-888-2950 (Spanish) or +352-23-849-2523 (English) More information How it works iGO Navigation is a free app, which allows you to make full use of your smartphone while driving. The app uses maps provided by OSM-basis and is powered by Theuniprotokoll®. the world's first Android GPS app. iGO Navigation is designed to meet the demands of drivers: Explore & plan your trip with 3D maps and the free offline mode of the app Get turn-by-turn directions with voice-guided navigation and the map display in the car Follow the route you choose, along the way with live traffic information Recharge your phone while driving, easily, thanks to iGO's energy saving mode Check the battery level of your car and smartphone from within the app Map of the world We have maps for just about every place on Earth. Choose your country to see which maps you need. The Netherlands Belgium France Germany 520fdb1ae7
