5.2, just like.NET Framework 4.5.2 was a highly compatible, in-place update to.NET Framework 4.5.1. In order to use the new features and functionality in.NET Framework 4.5.2, you simply need to run the update on any machine running a previous version of.NET Framework. There are no changes required for users of earlier versions of.NET Framework to install the update. As always, the update is available to all users who have installed a previous version of the framework. Download the update from the.NET Downloads page. For details on the features of.NET Framework 4.5.2, including breaking changes, see the What's New in.NET Framework 4.5.2 page. A list of the new features and improvements in.NET Framework 4.5.2, as well as a list of fixes, is available on the.NET Framework 4.5.2 release page. If you have questions, check out the Developer Support site for more information., [B46]). In addition to the influence of facial expressions, the degree of focus (i.e., eyes, mouth) might have impact on the emotional evaluation of one's own face (for a review, see: [B40]). Recent studies have demonstrated that passive viewing of one's own face is related to higher activity in areas related to cognitive evaluation of one's own face (e.g., [B46]; [B48]; [B25]). [B25] used an EEG paradigm and demonstrated that passive viewing of one's own eyes, compared to looking at the eyes of another person, was related to larger N2 and P3 components. On the one hand, this finding indicates a clear interaction between the cognitive evaluation of one's own face and emotion processing. On the other hand, however, it suggests that viewing one's own face has a greater impact on one's own cognitive evaluation compared to others. At present, however, we do not have an adequate explanation for these results. Future studies should address the issue of whether passive viewing of one's own face (compared to viewing another person) results in higher activity in areas related to cognitive evaluation of one's own face. Conflict of Interest Statement ===== The authors declare that the research was conducted in the absence of any commercial or financial relationships 520fdb1ae7
