MONSTER-MCPE Download Minecraft PE Minecraft PE 1.1.0.9 for Android At the same time, we are all waiting for a new update, we bring you the Minecraft Pocket Edition 1.1.0.9 update. This version brings to the world of Minecraft a large number of blocks, mobs and more. This version is available to all Android device users. What's interesting about Minecraft PE 1.1.0.9? This is the version that will be most liked by players who like to build something, since a large number of new blocks have been added to the game. In addition, a new dungeon has been added to the world of Minecraft for those who love battles and new places in Twilight Forest.Each player will find something new and interesting for themselves in the new update Minecraft PE 1.1.0.9. Mobs! Mobs like llamas have become very popular due to the fact that they can carry items and various things of players. It depends on the characteristics of the llama. The game automatically identifies certain features of llamas. Players can meet these mobs in both Savannah and the mountains. Most often these mobs live in herds in pairs and more. Their appearance depends on the biome; so they may look different. In Savannah they are often brown, and in the mountains are white. Vindicator and Evoker inhabit the Woodland Mansion, a new dungeon game. By killing these two mobs, the player can get the Immortal Totem. But before you kill them, you need to kill your boss, we pay your attention to the fact that it will not be easy. All these crowds are well armed and ready to fight at any second. Other changes to Minecraft PE 1.1.0.9A have changed the technical name. This is especially important for those players who create fashions, for others it is not so important, for example, changing the name from minecartchest to chest_minecart. As you can see, this is really important, because the wrongly entered name in the fashion structure can completely negatively affect the gameplay in the world of Minecraft. The names of some languages, such as Czech and Norwegian, have been changed. In addition, the formerly famous Painted Terracotta now has the name Terracotta. With this material, you can create a glazed terracotta (a new block of the game). From now on, the duration of the spider's venom will depend on certain settings of the game.
