The actual driving range may greatly vary based on driving behavior, charging habits, speed, payload, terrain, accessories and weather conditions. Payload excludes the driver and includes cargo box. The total permissible cargo weight must not be exceeded.

Battery pack capacity may naturally degrade over time and with use, which will affect vehicle overall performance.

Charging times are approximate and require GB/T compatible charging plug. Charging losses of 20% have been included in the calculation.

Technical specifications and data are true and accurate as of the publication date which may differ according to the country of sale and are subject to change without prior notice. Images provided are for illustrative purposes only and may not reflect the actual vehicle or its features. Figures provided are intended for comparability purposes only and should be compared with vehicles tested under the same technical procedures and within a similar weight class.
