

Metin2 Instant Server Files By Raven

The screenshot shows the Microsoft Excel application window. The main area displays a worksheet with the following data:

	A	B	C	D	E
1	Last Name	Sales	Country	Quarter	
2	Smith	\$16,753.00	USA	Qtr 3	
3	Johnson	\$14,808.00	USA	Qtr 4	
4	Williams	\$10,644.00	USA	Qtr 2	
5	Jones	\$1,390.00	USA	Qtr 3	
6	Brown	\$4,865.00	USA	Qtr 4	
7	Williams	\$12,438.00	UK	Qtr 1	
8	Johnson	\$9,339.00	UK	Qtr 2	
9	Smith	\$18,919.00	USA	Qtr 3	
10	Jones	\$9,213.00	USA	Qtr 4	
11	Jones	\$7,433.00	UK	Qtr 1	
12	Brown	\$3,255.00	USA	Qtr 2	
13	Williams	\$14,867.00	USA	Qtr 3	
14	Williams	\$19,302.00	UK	Qtr 4	
15	Smith	\$9,698.00	USA	Qtr 1	
16					
17					

The 'XML Source' task pane is open on the right side of the window. It contains the following text:

XML maps in this workbook:

Verifying that the XML map is valid...

Options... XML Maps... Verify Map for Export... ? Tips for mapping XML

lite does, for example, not work noobee: Have you tried reinstalling alsa? Ok, sorry, I'll try and be more clear, where do I find it, the shortcut? noobee: I've seen that happening in the past. lazors: yes. And by "work", I mean in the context of this shortcut. junior_quiche: you might find it in your GNOME settings lazors: Thank you. reioio: I'm using Unity (but it doesn't matter if it works) noobee: Good luck. :audio If you're having problems with sound, click the Volume applet, then Sound Preferences, and check your Volume, Hardware, Input, and Output settings. If that fails, see - - - For playing audio files, see!players and!mp3. reioio: and, to be clear, I'm looking for a shortcut that just inserts a line of text (in the terminal) But the line of text will be preceded by a number - so it will look like this: "ls # -l /etc/apt/sources.list". Junior_quiche, CTRL + T junior_quiche: you might be able to do something with a bash script, but I don't know Hello! Younder: yes, that works, but that's a shortcut for'manual' search, not'shell' search. reioio: I have a bash script already, I just need the # to be inserted in the middle, not the beginning of the line. For example, I have the line "printf '# -l /etc/apt/s
