-lunes-23-de-diciembre-2016-2/#comment-20369 Wed, 30 Sep 2016 20:55:08 +0000 Brothers Rene and Ramon Calvert, who co-founded the label, were convinced of the performance's greatness and so decided to make it available for fans to buy. A representative from Universal Music confirmed the label's interest in putting together a 50th anniversary tour. And the group's former manager, Brian Weiss, met the band at a resort in Hawaii a few months back and brokered the deal, giving the Beatles \$2 million to license the concert. At the time, McCartney told the Wall Street Journal that the Beatles would make a donation to the Simon and Schuster Center for Literacy, a charity benefiting underprivileged kids in the U.S. "We've got to do something,"

McCartney said. "There's millions of kids in America who can't afford books." [...]]>Clinical significance of radiological abnormalities in rheumatoid arthritis. Radiological examination is not a routine practice in the assessment of rheumatoid arthritis (RA). Thus, the correct interpretation of radiological changes is often underestimated. In this chapter, we describe the importance of recognizing and interpreting the characteristic features of different joint abnormalities to determine the extent of RA activity. Such observations will, in turn, help in the selection of appropriate treatment regimens. In addition, the diagnostic value of the various abnormalities, especially bone erosions, is reviewed. Radiographic abnormalities in RA are a reflection of disease activity and severity. Thus, radiographs provide a guide to the treating rheumatologist in the assessment of disease activity and response to therapy. Newswise — DECATUR, Ill. – Children treated at a children's hospital in Illinois were up to two times more likely to contract a drug-resistant infection like bloodstream or pneumonia after being exposed to hundreds of millions of dollars in medical equipment, new research from The University of Iowa and Children's Mercy Hospital shows. The study is the first to identify cases of multidrug-resistant (MDR 520fdb1ae7
