

WE ARE BUILT FOR MEETINGS

BUSINESS MEETINGS ARE ENDLESS. We're here to help. Meeting-Master was designed to solve the problems every businessperson faces on a daily basis – problems everyone hates but lives through because there was never a solution.

HOW MANY MEETINGS DO YOU ATTEND IN A DAY? A WEEK?

Meeting-Master is essential for all your business meetings, providing time management, analytics for data-driven decisions, and saving money while securing your data.

BUSINESS MEETINGS HAVE BECOME MORE VISUAL

Meeting-Master is the first and only platform to manage live and interactive content, as well as static. We organize and combine all of your live and interactive content along with your notes, digital signings, documents, unique meeting recordings, and analytics into an easy to use web portal.

72%
OF THE TIME
LEAKS ARE
INTERNAL

SECURITY

72% of the time your company's confidential content gets shared with a competitor or outside your company, it comes from your own internal staff. Meeting-Master solves that problem.

FOUR LEVELS OF SECURITY

1. **OPEN** – share with anyone
2. **COMPANY** – share within your company
3. **PARTICIPANTS** – only share with participants of the meeting
4. **CLOSED** – user has access but can't share with anyone else

**AWARD-WINNING
PATENTED PLATFORM**

HOW IT WORKS

MEETING-MASTER WORKFLOW

- Invite people to meetings like any type of calendar invite
- Broadcast ANY content to users' digital devices
- Users can make notes, annotate, highlight directly on the content
- Users can ask questions through their device and answer polls
- Each user has their own portal with all information in one place
- User can easily share all information (based on security level)
- All information can be protected with four (4) levels of security
- Digitally sign and store documents with related content

MEETING-MASTER IS GREAT FOR SALES!

- Powerful analytics help gain insight into your customer's interests
- Close and forecast sales better
- Providing access to meeting material/demo/content helps you stand out from your competition
- Track sharing of your material/demo/content - know when it is passed to the decision maker
- Know what areas of your presentation need work
- Combine all of your content, notes, analytics, digital signatures into one place so you have the **WHOLE STORY**

MEETING-MASTER IS ESSENTIAL FOR EVERY BUSINESS!

Why have meeting participants make notes separate from the content? Participants can make notes, highlights, annotations directly on the content and refer back to it at any time. The platform manages the workflow for live, interactive, and static content.

YOU NEED TO SECURE YOUR CONTENT! WE PROVIDE FOUR LEVELS OF SECURITY

Easy to share: Tracks sharing of content

Powerful analytics for data-driven decision making: Sales forecasting, meeting analytics, HR analytics...

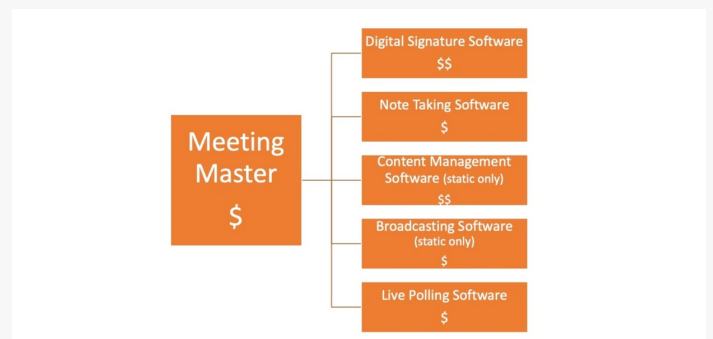

Consolidate to save \$\$: Replaces all digital signing, note taking, content management, broadcasting platforms

ANALYTICS

What they deliver
