I am Tahira Amir Sultan Khan, affectionately known as ‘Tahira Golden Door’. As a veteran technologist and former President of the Mobile Alliance Singapore, I played a role in shaping frameworks for Smart Cities across Asia and the Middle East. In 2014, with my Committee, I was entrusted the national-level endeavour to help make Singapore the Mobile Innovation Hub for Asia.

However, profound turning point arrived that changed everything for me. Divine encounters with Jesus, Enoch and Angelic Beings. It was a clear calling for me to take an entirely different path.

In September 2014, I stepped down from technology leadership roles and followed a divine guidance to focus on what she would refer to as our “Human Technology” — the awakening of the New Human / Pure Human, a limitless, super-creative Renaissance Man or Woman capable of extraordinary mastery in multiple fields. My first book released in Jan 2016 : "Through The Golden Door : The Doorway to Our Advancement" : bit.ly/goldendoorbook

*“A brilliant mind and an uncanny accuracy in predicting national events” ~
Joaquim DeSouza, Technocrat, USA*

I was given forewarning of Covid-19 before it happened, how it was caused, as well as other terrorists attacks. She was shown the real people / groups behind them.

As a Polymath, I move fluidly between disciplines — poetry, creative writing, mathematics, fine art, culinary arts, and architecture — embodying the multidimensional potential she teaches.

*“Tahira is a Visionary.”
~ Singapore's Ambassador-at-large to the United Nations, Prof Tommy Koh,*

I have received testimonies from some of the most notable people in Singapore : former nominated member of parliament, Viswa Sadasivan, Singaporean of the Year Satwant Singh, Singapore's Justice of Peace Ameerali Abdeli and more.

I am also of Founder of Through The Golden Door EcoSocieties, a Visionary Creation that is forming 15 eco-communities on over 100 hectares of land across Africa and Asia. My work and vision have been featured in Asia One, Market Insider, New York Chronicle, India Se' Magazine, Preeminence Magazine, Timeless Teachings , Gutsy Women and I have been profiled as a Futurist on the STOMP-Asia. In Singapore, I have appeared on the nation's premier radio show Money 89.3 FM multiple times.

At the Sept 2205 Global Pyramid Conference 2025, I was one of Speakers, sharing the stage with Italian scientists who discovered the structures beneath the Giza Pyramids. I am in the midst of writing a new SciFi novel entitled ‘The Grand Genesis and the Great Politics’.

The Vision of the GOLDEN DOOR

In 2016, I released Through The Golden Door: The Doorway to Our Advancement, a deeply personal chronicle of the moment everything changed in September 2013.

Before that turning point, my life had been marked by profound loss, serious illness from enlarged tumours, and years of depression and fear. Then came an extraordinary awakening — the appearance of stigmata, and a face-to-face encounter with a Divine Being.

I felt like I reached the pinnacle of her supernatural experiences when, stepping out of her breakdown, I entered what felt like the realm of Heaven: my palms alive with energy, the air charged with golden light, fragrant breezes, and pathways shimmering with gold. This experience led to nine months of near-isolation — researching, writing, meditating, fasting, and receiving countless divine revelations and prophetic visions, including the vision of the Golden Door.

Guided to persevere despite losses, for the first time of my life, I emerged as a true Renaissance woman, weaving together spirituality, philosophy, geometry, quantum physics, symbolism, biology, ancient wisdom, poetry, literature, and art.

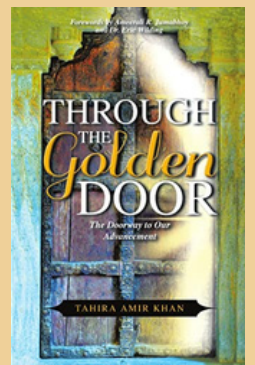

“There are many doors, but there is only one Golden Door,” were the audible words I recall. Those were the words given to me in deep meditation during those pivotal moments of change. I was to become the Door for others as they embark on their journey of spiritual evolution.

THE EARLY VERSION OF THE NEW RENAISSANCE HUMAN PROGRAM

In 2016, I introduced this as a one-day experience that soon evolved into a profound journey of self-mastery.

Integrating my original frameworks — the Law of Circulation and the Black & White Whole: Heaven in the Heart theory — the program expanded into The New Renaissance Human, inspired by 45 scientific theories from her book Through the Golden Door.

By 2020, the fully developed New Human Program was attracting participants from around the world, including the UK, Australia, New Zealand, India, Malaysia, Pakistan, and the USA.

QUANTUM GLORY MEDITATION

A Master Meditation Coach, I have led hundreds of Quantum Glory Meditation sessions worldwide, credited with remarkable healings, deep transformation, and life-changing breakthroughs.

Drawing on my expertise as a qualified mathematician and quantum physicist, along with advanced training from renowned scientists Gregg Braden and Dr. Bruce Lipton (HeartMath Institute).

I created a profound meditative practice refined over more than two decades, offering a unique journey of mind, body, and spirit integration.

HEART-MIND COHERENCE

At the core of Quantum Glory Meditation is heart coherence — a state of physical, emotional, mental, and spiritual harmony that brings out our highest potential.

Research from the HeartMath Institute in the 1990s revealed that this state emerges when the body's systems — breathing, heart rhythms, brain activity, and hormonal responses — are synchronized. This not only optimizes health and performance but also cultivates emotional balance, mental clarity, and resilience.

TAPPING ONTO THE QUANTUM FIELD

Participants are guided to access the quantum field — a subtle energetic dimension encoded within our very DNA. This may involve stillness, gentle movement, or even a flowing dance, awakening dormant senses, promoting deep healing, and unlocking new levels of awareness.

OPTIONAL : For those seeking an enhanced experience, Quantum Glory Meditations can be paired with the following:

- A Portable Pyramid Structure for magnified healing.
- Pyramid LifeWave energy patches — nanoscale semiconducting biomolecular antennas that interact with the body's bioelectromagnetic field, resonating with cellular biomolecules and activating specific metabolic pathways, including accelerated fat metabolism.

For both, advance registration of 30 days is required for this option. It comes with an additional fee.
