Check out our PSU test orbits (information provided for the 2021 reception). The University of Los Andes reserves the right to amend the information described on this page. Here we distribute to all applicants the models of proof and resolutions distributed each year. Each model was created in accordance with the theme of the appropriate admissions process. All documents are available for download in PDF format. Test Models Receiving Process 2020 Access and Practice with official PSU testing models. The platform lets you answer a stopwatch that marks the official time of each test, and you'll finally be able to find out how many correct answers you've received. In addition, it will give you an explanation of each issue, in line with the current agenda for the 2020 Admissions Process.
