Opikini.com (Opikini.com) After successfully opening a bca account, the administrator will share an experience of how to register BCA mobile banking at an ATM and activate m-BCA on Android, so that we can later use various financial transactions such as balance check, check account mutation and purchase of credit hp and others. But please keep in mind, even if we have already signed up through atm, then activate the m-BCA service on HP Android, which we can only do not financial transaction types, such as the settlement balance, and if you want to be used for other transactions such as transfer, pay or buy, then must activate financial services first. It is interesting to activate bca mobile banking financial transactions can not only be done in affiliates, but can also activate in myBCA and BCA Express, so that the process can be faster without hassle queues. How to register a BCA mobile banking on an ATM Input Atm card then enter the ATM PIN. Then select the E-Banking List menu. Choose mobile banking and then YES. Enter a mobile phone number that will be used to access the M-BCA service and then fix it. Finally make a 6-digit PIN to be used when we later use the m-BCA app on Android as much as 2x. (Important: better prepare and then note the pin you want to make so that it won't forget later). If the registration process is successful, you will leave the receipt from the ATM. How to activate m-BCA on HP AndroidPost. Registration of mobile banking through the ATM successfully, then we activate the bca mobile app on HP Android as follows. Download the BCA mobile app from the Google Play Store. Once the app is installed and opened and the m-BCA menu is selected, you'll see a notification about M-BCA's mobile banking, select Accept. The next step is to enter 16 BCA ATM card numbers at the front and select OK. Then create a user ID that will be used every time you access your BCA mobile phone. Format 6 alphabetical numbers (a combination of numbers and letters), such as 12345A and so on. (Take a good note of access to this code, because if you forget, it will not be able to open the m-BCA application. but as I mentioned above, if you want to be used for financial transactions, then we have to activate financial services first in a branch or myBCA that usually exists in several major shopping centers and for Bogor Regency one of them is located in Cibinong Mall ground floor. This is a small information on how to register bca mobile banking along with the activation of m-BCA on HP Android, for the registration process I will eat it in the next post because when this writing is done I didn't activate it. Read also: How to register online banking and activate the key. Know Service Now all banking transactions #DibikinSimpel from the mobile BCA. Simply by connecting to the Internet and activating the BCA mobile app, all banking operations can be completed within minutes anytime, anywhere. The mobile benefits of BCA mobile transactions without replacing SIM cards can be used for mobile banking (m-BCA) through all GSM operators, namely Telkomsel, XL Axiata, Indosat, Axis and Three without having to change the SIM card. Transactions are becoming more effective With internet lines such as GPRS/EDGE/3G/4G/WIFI Save the payment list on m-Payment there is a saving feature in the payment list, so for the next payment transaction the customer simply chooses the customer number and does not need to enter the customer number that will be paid. Transferring a stock list is enough to register an appointment account number (either for transfers between BCA accounts or transfers to other banks in the transfer list menu), so just select from the transfer list for the next transaction. Practical and easy to use to pay for transactions and transfers do not need to enter the company's destination/banking code code, but simply choose from an available menu.
