In 1998, the book was awarded the annual William Allen White Children's Book Award. Plot summary Phoebe Harte's brother, 13-year-old Mick, died in a bicycle accident, because he chose not to wear a helmet. This brought an incredible amount of grief and sadness to the Harte family. The book, recounted by Phoebe herself, shows the effect of Mick's death on his friends and classmates, and delves into the grieving process that Phoebe and her parents went through. The book offers some of Phoebe's fondest memories of Mick- many of them related to jokes that Mick enjoyed playing with his friends and family - in the form of anecdotic anecdotes about when the two of them were young. [1] According to Publishers Weekly, Park showed a tremendous ability to convey the great influence both personal and collective pain of these family members. Park does this, not through melodrama, but through what Publishers Weekly calls focusing on small moments, such as when Phoebe's father returns home from the hospital and quietly closes Mick's room. [2] Reception Park's novels are well reviewed. Publishers Weekly called it an official and convincing film, praising Park's ability to make events realistic while completely avoiding the mawkish. [2] In 1998, the book won the William Allen White Children's Book Award, an honor given to it by a Kansas student vote. [3] Out-of-weight bike safety theme the novel's grieving process, another theme woven into the fabric of the novel is bike safety. The book strongly suggests that if Mick was wearing a bike helmet, he would not have died from his injuries. In one scene, as Phoebe is a guilt about Mick's death, her father sighed a lot, and said quietly, If only I had made him wear his helmet. The topic comes up again at the end of the book, when Phoebe overcomes his own pain and anger in what Publishers Weekly calls a powerful scene in which Phoebe overcomes his own pain and anger to join a school board on bike safety. However, Publishers Weekly also noted that the topic of bike safety never dominated the story, and that Park never allowed the book to fall into a maudlin warning story. Mick Harte Was Here is a Story profound impact on mortality, blame, love, recall, family, sin, and childhood freedom. Honestly, I didn't expect that. It has been a while since I read a children's book I've enjoyed. Like, Louis Sachar's mud comes to mind, as does The One and Just Ivan. While a lot of people love them, they feel like children's books to me. The best of children's literature has the power to connect, no matter a person's age. Honestly, I didn't expect that. It has been a while since I read a children's book I've enjoyed. Louis Sachar's fuzzy mud comes to mind, as does The One and Just Ivan. While a lot of people love them, they feel like children's books to me. The best of children's literature has the power to connect, no matter a person's age. It's part of what makes (or will do) Harry Potter, Narnia, or Alexander and terrible, terrible, not good, very bad days beyond time. You learn on page one that it was a bicycle accident. That Mick touched a rock. And like any Jon Krakauer book, you know where you're headed: this is tragedy. This is how we get here. For me, the most honest parts of the book are the parts that I hesitate to ask. And my grandmother said that God needs Mick more than we do. What is only selfish God? To rob someone from those who love him? Not to mention the fact that it's hard to believe that the most powerful in the entire universe needs a seventh grader who can't even program a VCR without damaging the TV. I was (and perhaps all of us were) she said things trying to help, and hurt. Or insecure friends at school, keep their mouths shut - protection: yourself, you - and hurt. Maybe that's what accepting mortality is: pain.*Edit* I read this book because of the middle school where I used to teach reading it together as a school. I am grateful to be included, although I am no longer there. I am interested to hear how it was received by students and staff. ... more Barbara Park, Author, Shreffler, Author Alfred A. Knopf Books for young readers \$15 (89p) ISBN 978-0-679-87088-3 More By and About this author I don't want to make you cry. I just want to talk to you about Mick. But I think you should have known right before that he wasn't here anymore. I just thought it would be fair... Phoebe, the eighth-grade ningman of Park's (Friends; Don't Make Me Smile) the heart-wrenching novel, woven together diverts anecdom about her endearingly eccentric brother with his reaction, and those of her parents, to her death in a bicycle accident at the age of 12. The genius of this novel is Park's ability to make events excruciatingly realistic while completely avoiding mawkish; Phoebe's outspoken, sometimes even humorous narratives will leave readers feeling as if they've known the girl and Mick-for a very long time. Mr. Park's ability to communicate affects both individuals and individuals the pain of these family members is extraordinary. She focuses on the small moments - the father closes down Mick's room upon returning from the hospital; the mother covered her ears because she could not stand Phoebe's words about her brother. But the novel has another important dimension in that it emphasizes the importance of wearing a bicycle helmet. In the middle of the story, in response to Phoebe's sense of guilt, Phoebe's father introduces the theme: He sighs terribly and whispers, 'If only I had made him wear a helmet.' The message is deftly echoed toward the conclusion, in a powerful scene in which Phoebe overcomes his own pain and anger to join a school board on bike safety. The author's note at the end reinforces the message. For Mr. Park, the lesson never dominated- the story was not a warning story, but an official and convincing film. Ages 8-12. (April) (April)
