Full access to the network allows the app to create network outlets and use custom network protocols. The browser and other apps provide the tools to send data to the Internet, so this permission is not required to send data to the Internet. Read the state of the phone Allows you to read only access to the state's phone, including the device's phone number, current cellular network information, the status of any current calls, and a list of any PhoneAccounts registered on the device. Vibration control allows the app to control the vibrator. Prevent your phone from sleeping allows the app to prevent your phone from sleeping. Changing or deleting the contents of your SD card allows the app to write on an SD card. Getting data from the Internet allows apps to receive cloud messages to devices sent by the app service. Using this service will hang the use of data. Malware can lead to overuse of data.
