A total cleaning performance\* of 400 was assigned (100x more than the Max, 200x more than the catfish and 300x more than the Aqua Broom). Brand Information In 2001, Water Tech began the battery-powered revolution in pool cleaners with the release of Pool Blaster Max. What followed was a series of industrial transformation products that made our competitors scratch their heads as they watched this revolutionary idea become a for innovations in the world of pool and spa cleaning. The development of the Pool Blaster Line Line Battery-powered cleaners were not an easy performance. A combination of perseverance, scientific minds, design talent and a tendency to think outside the box was poured into every water tech product. While other manufacturers struggled for decades with the idea of an affordable, battery-powered pool cleaner, Water Tech and its founder Guy Erlich emerged as pioneers of this new battery-powered frontier. The Pool Blaster Max made a sensational debut at the beginning of the new millennium and became the first truly pool cleaner of the 21st century. To date, Water Tech is the only company to have solved the battery-powered puzzle. Shipping ©2020 Walmart Stores, Inc. Inc.
