2019 saw the release of the Voodoo13's 4 song EP TwentyNineteen. They have played just a handful of shows this year. With the most notable opening for Blacktop Mojo in Memphis, TN and The Nixons and Sponge show in Newport, KY. October 1st saw the re-release of their older material titled TwoThousand (The Early Days), an 11 song CD with new packaging. While writing is going strong they plan to hit the studio in Early April with a release in early June.

Some influences: LA Guns, Junkyard, Led Zeppelin, Aerosmith, Motorhead, Thin Lizzy, Guns N Roses, Neil Young, Skynard, and even some newer bands like Blacktop Mojo and Dirty Honey....

Voodoo13 is a blue collar band with the dirt and grit under its nails to take them and their team to the top. They are currently shopping around for a label, management, and booking support.

V13 is now in the process of booking dates for a mini run to L.A. in August of 2020. Also would like to do some one off shows, with some heavy hitters. Especially looking to land some of the festivals, in the New Year of 2020. The band has been together off and on and in many projects for the past 22 years. They band has grown as musicians and men and become more of a family than ever before. We are a gang of brothers.

We play Rock 'n Roll with a hint of blues and punk. It's our style, it's our lives, it's what we do. Voodoo13 has played on the same bill with some very big names: LA Guns, Black Stone Cherry, The Nixons, Sponge, Blacktop Mojo, Better Than Ezra, Warrant, Great White, Alice n Chains, Kiss Army, Ra, and Buckcherry.

Festivals Played: Locobazooka Fest, Bayou Swamp Fest, Jubilee Jam, River Fest, SXSW, OK Mountain Fest, and International Paintball Championship.
