In fact, the model is a full-fledged second generation, not the next planned restyle. It will not be difficult to distinguish the novelty from its predecessor. Stylish angular headlights with a head, flaunting elegant sections of daytime running lights. The grille is hexagonal and corporate-style. It consists of a set of thin horizontally oriented ribs and is emblazoned with the manufacturer's logo. On each side, on the front bumper, there are special grooves with plastic inserts, giving the front an aggressive look. In general, the car got a fast and modern design, but at the same time has not lost its family features and is still well recognizable on the road. AUDI A7 DIMENSIONS The A7 is a premium four-door E-liftback: its overall dimensions are 4,969 mm, 1908 mm wide, 1,422 mm high, and the wheelbase is 2,926 mm. The Audi A7 is built on the modular MLB EVO platform from the flagship A8 sedan. Suspension is a fully independent multi-reference, for an additional fee you can be equipped with a sports package or pneumatic elements with adaptive shock absorbers. The audi A7 can please a good amount of space. With the raised backs of the second row of seats, there are up to 535 liters of free space behind. Due to this volume, the car is ideal for everyday tasks of the citizen and at any time can begin a long journey with an abundance of luggage and several passengers on board. If at the whim of fate the car owner needs to take on board a larger load, he can always sacrifice seats and fold the back row. Up to 1,390 litres can be produced in this position. TECHNICAL CHARACTERISTICS AUDI AUDI A7 is available with a single engine, automatic transmission with variable transmission and exclusively branded all-wheel drive system. Despite the lack of alternative units, the presented line is quite versatile and is able to satisfy most of the requests of a potential buyer. The Audi A7 engine is a petrol V-shaped turbocharged six with a volume of 2,967 cubic centimeters. Thanks to a good shift, advanced turbocharger and direct fuel injection, engineers were able to squeeze 340 horsepower and 500 Nm of torque. With such a herd under the hood, the car breaks from place to speed of one hundred kilometers per hour in 5.3 seconds, and the maximum speed, in turn, is limited by electronics and is 250 kilometers per hour. Despite the high power and excellent dynamics, thanks to the Mild Hybrid system the power unit is quite economical. The fuel consumption of the Audi A7 will be 6.8 litres of petrol per hundred kilometers in a mixed cycle of traffic. TOTAL Audi A7 keeps up with the times. It has a stylish and elegant design that can perfectly emphasize the character and status of its owner in society. Such a car will not dissolve in a gray routine stream and will not get lost in the large parking lot of the business center. The salon is a sphere of luxury, quality materials of finishing, well-regulated ergonomics, practicality and unsurpassed comfort. Even a long journey or traffic during rush hour can not cause unnecessary inconvenience. The manufacturer is well aware that, first of all, the car should enjoy driving. That's why the liftback is equipped with an excellent line of units, which are the quintessence of innovative technologies and a lot of experience in the field of engine construction. Audi A7 combines an amazing set of stunning in quality dynamics, luxury, space and unsurpassed practicality. File Title Size Download Link Audi Sportback 2010 Owner manual.rar 18.1Mb Download Download A7 Sportback Onboard Power Supply.pdf 2.4Mb Download Audi A7 Sportback - Audi AG's five-door lift. This is the first Audi of this size. Conceived as a competitor to the automotive market of another German luxury coupe-sedan Mercedes-CLS. In the lineup Audi is the next largest after a similar body formula Audi A5 Sportback. In the price class, it is located slightly lower than the flagship concern Audi A8 For the first time as a sketchy design, the Audi Sportback Concept was demonstrated at the Detroit Motor Show in 2009 and then at the Paris Motor Show in 2010. In fact, as a production car that inherited many parts from the mentioned concept car, the Audi A7 was unveiled to the public on July 26, 2010 at the Munich Museum of Modern Pinatotka. Audi A7 2016 has an updated design, with a great emphasis on styling the mold. The Dana model has a large body with amplifier and sloping rear doors, as well as an impressive interior. Also, the 2016 version is equipped with more powerful engines - a 3-liter V6 gasoline engine with a supercharged power of 333 hp and a 3-liter turbodiesel V6 with 240 hp. Both engines work in combination with an eight-speed automatic transmission and a quattro system brand Audi. The A7 body is built on the original platform, which, according to analysts, is likely to be used later in the design of the new generation Audi A6, which is expected from 2011. The A7 is significantly lower-fit - clearance and as a result its aerodynamic resistance is 0, 28 Cx. The outer design of the A7 is characterized by a longer engine compartment, a slow, smooth curve of the roof and a short feed. The four-door body formula under the German classification gives the car the right to be called a limousine, but in accordance with its shape and elegance, manufacturers and experts classify the A7 as a coupe. In the car behind is the fifth door, which in the German classification is called not a door but a lid, a sheet. The presence of this electrically-closing body part brings the A7 closer to another Audi competitor, the latest BMW 5 GT-brand model, in which the rear door also has an electric drive. This body shape makes it possible to use the luggage compartment more efficiently. It has a capacity of 535 litres, with the rear seats shifted to the back, it reaches 1,390 litres. 1 2 Table Contents 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 2012 audi a7 owners manual pdf
