I did this by following a video on YouTube (made by Dirty Weasel Media - all the credit goes to it for the fix, I just followed the video and did things :)sopicly put it in after the wearable lights. It doesn't have a plugin, only some translation files and SKSE DLL that I transplanted from the Skyrim LE version (as the video commissioned). Another recommendation of Dirty Weasel Media from his comments to the video below: -For those who return after the latest updates Skyrim.exe and SKSE64. You will get the Warning Message as seen at 3:32, it is because SKSE has changed. The solution is to remove the existing .json files in Wearable_Lanterns_4.0.3`Fixed-SKSE-Plugins-WearableLanternsData. Then run the game freshly, it will generate new files, which can then be drawn back into the wearable lanterns from Overwrite, as seen in the video. - Dirty Weasel Media Page 2 Toggle HUD items or size, change positions and swap items with an alternative version. Features dot crosshairs, thin compass, compass, Ammunition display, individual compass markers and built-in font mod support. Adds a cunning, wearable tourist lantern, which can be hooked by the belt or hold in your hand! Torchbug lanterns, follower support, and more! Requirements This mod has no known dependencies other than the basic game. This mod is not chosen in receipt of Donation Points Translations Turkish Spanish Portuguese Polish Italian Italian Turkish author: Negatrm Wearable Lanterns - Turkish translation Portuguese Author: saulojcastro Wearable Lanterns - Portugues Brasil Czech Author: Antix Wearable Lanterns Czech translation Another author: doferhans Wearable Lanterns - Traditional Chinese translation Italian author:Chesko Wearable Lanterns SE ITA Polish Author: elleverer Wearable Lanterns - Polish Translation Spanish Author: Supercerto Wearable Lanterns - Castellano German Author: naycom Wearable Lanterns - German Changelogs Features and Changes - Removed SkyUI and SKSE requirements to Classic Skyrim. Turn off when Sneaking is now the default. Added Options powers: Wearable Lanterns, Lantern: Toggle and Lantern: Check Fuel, which are available in a special edition or when SkyUI is not installed. Error Fixes - Switch off when sneaking no longer affects followers to avoid CTD. To turn off the lanterns of your followers, talk to them and select About Your Lantern..... (All followers) Keep the lantern off for now. You can choose another option from the same dialogue menu to re-enable them. When using Hold Control to Toggle, Sprint key, your lantern will no longer switch or turn off when sprinting, only standing still with the key press. Keys. Direct donations accepted by Wearable Lanterns is the final to wear a fashion lantern for Senior Scrolls V: Skyrim.Adds craftable, wearable travel lantern that can be plugged on your belt, or carried in your hand. Catch the torch in an empty torch lantern and let it light the way in the dark dungeons while you keep your hands free during battle and adventure. If the campfire is installed, you can craft travel lanterns from Survival Skills: Create an item, and use a oil lantern as a tinder for a campfire. The placement of the lantern on the belt was inspired by the legend of zelda: The Twilight Princess. It also foreshadows the visual style of Dragon Dogma.Lanterns can be given to your followers, allowing them to keep their hands free, too. Talking to them and choosing about your lantern ... you can change the position of the lantern, or ask them to turn it on or off it. Featured in PC Gamer's 50 Best Skyrim Mods.See here for a complete change of log and patch notes. HOW TO CREATE a lantern, you can: Buy a travel lantern, or craft one in a forge. Buying an empty bug lantern, and catch Torchbug while wearing lanternsBeing to wear lanterns, they are under the SECTION OF APPAREL your inventory and in stores. CONFIGThe way you use and switch the lantern (conducted or worn) can be changed by selecting Options: Wearable Lanterns from your Spell Menu, and pressing the scream key. You can change the position of the lantern, brightness and more. I try to use 'Lantern' frequently, but nothing happens. Lanterns (a mess item found in the world) alone may not be years to work. Combine them with a leather stripe in a forge to convert them into Travel Lanterns that can be equipped. I gave the wearable lantern to the follower, but it didn't include. Followers will turn on their lanterns only at night, or when in hostile interiors like caves and dungeons. It will stay away during the day and when in homes and hotels . When I sneak in, my follower doesn't turn off their lantern like I do. To turn off the follower's lantern, talk to them and ask them to turn it off. I gave the lantern to the follower, but it did not appear correctly . Try to take it back and give it again. DIFFERENCES FROM CLASSIC SKYRIM There are no oil/pollen meters when using these respective systems. Instead, use options: Wearable Lanterns. Instead, use Lantern: Toggle and Lantern: Check Fuel. So I tried to install the wearable lanterns in the Skyrim Special Edition in Windows 10. This gives me a read to write an error and that it will be caused by the SKSE folder in the data installed on the read only, but when I go to the untick box I just find it ticked again when I re-open the prorperty menu. Things пытался-Установка skse64, пара и skyrimlauncher для запуска в качестве администратора-Отключение Windows UAC-Сделано уверен, что мой пользователь имел все привилегии администратораDoes кто-нибудь знает о исправить для этого? Я искал везде и до сих пор ничего не работает! Страница 2 11 комментариев Проблема.
