. . This is my code: public static void main(String[] args) { try { Class.forName("sun.jdbc.odbc.JdbcOdbcDriver"); Connection con = DriverManager.getConnection("jdbc:odbc:Driver={Microsoft Access Driver (*.mdb)};Dbq=D:\asb\ASB.mdb;DefaultDir=D:\asb;"); Statement stmt = con.createStatement(); ResultSet rs = stmt.executeQuery("SELECT * FROM tabla"); while (rs.next()) { String Name = rs.getString(1); String Age = rs.getString(2); String Sex = rs.getString(3); System.out.println(Name + " " + Age + " " + Sex); } } catch (Exception e) { e.printStackTrace(); } }

A: It is not a 32 bit driver, it is Microsoft Access database engine. To get access you can download from here: After downloading you can install it by running file: "odbcaccess32.msi" as an administrator. Web Design & Development Your web site is your greatest marketing asset, and is at the center of your online identity. It's an essential part of your overall strategy. As a small business owner you need to have a web site that tells people who you are, what you do and why they should visit your web site. When selecting a web developer, one of the most important things to consider is the professional experience of the company. If you are in the business of selling, or servicing products or services, it is essential that you have someone knowledgeable about the world of internet commerce. 520fdb1ae7
