Add s to singular verbs, when using a special third-person noun and pronoun, all you have to do is add s to the basic verb form. For example: Singular regular verb: Mary bakes cookies. Singular irregular verb: Mary makes cookies. Throw s with Plural VerbsIn many cases the opposite concerns multiple nouns and pronouns. When it comes to the plural noun, you drop the s you added in creating a singular form for the verb to create its plural shape. For example: Regular verbs Plural: Mary and John bake cookies. Multiple irregular verb: Mary and John make cookies. Add -es to singular irregular verbsIn the case of irregular verbs, for special third-person nouns and pronouns, you sometimes add -es to the basic form of the verb. For example: Singular irregular verb: it always catches the ball. Singular irregular verb: He travels to Africa once a year. Plural Irregular Verb: They go to Africa once a year. Change -y to i and add -es Also in the case of some verbs, you have to change the -y ending to -i, and then add -es to form a singular verb. For example: Singular regular verb: A student tries to earn straight-medium. Compare this with multiple forms of the same verbs: Plural Regular Verb: Students try to earn on average straight-A. Multiple Irregular Verb: Birds fly south for the winter. The problem with irregular verbs is that they change shape between past time and past participation. For irregular verbs, unfortunately, you just have to learn the past tense as there is no pattern: the catch gets caught, the do gets done, the spring gets jumped. When used in the past tense, irregular verbs completely change shape, rather than just adding letters or letters.
