Thank you very much for your cooperation. Boswell, Larson Boswell, Larson Boswell, Larson Boswell, Larson Boswell, Larson Boswell, Larson Howdy, Are You Using Big Ideas Math? Here are some great quizzes and a test for you. I wrote two quizzes and a test for Chapter 4 – Common Core Edition. There are 25 questions completely tailored to SBAC and use Smarter Balanced Element Specifications. It is a product without preparation. The images are carefully crafted and the pages are formatted for easy correction. In addition, they also work well for PARCC. You'll get great data and information about which of your children need a little more help in learning about percentage, fraction, and decimal measurements. Also, this is a great prep test. You need to evaluate the standards in each chapter, not just the software materials. Response keys are included. A file is a Word document, and you can edit and make the necessary changes to teach your precious children. You can also make multiple versions for yourself if you want. Happy Math, Megan PS. They are also excellent as sheets for shape assessment and at the end of the year prep test, I used common core edition big math ideas to make these, but they seem to fit well with other versions. You can edit them again to meet your exact needs. StandardsUse ratio reasoning to convert measurement units; manipulate and transform units accordingly when multiplying or dividing quantities. Find a percentage of the quantity as a bid per 100 (e.g. 30% of the quantity means 30/100 times the quantity); solve the problems of finding the whole, taking into account the part and percentage. Seamlessly add, decipher, multiply, and split multi-digit decimal places using a standard algorithm for each operation. Page 2
