Rated 5 out of 5 click, click, click Aug 27, 2019 Wow, this is the best havok game i've played, and i've played a lot of havok. I like the massive damage you can do, if you build multiple havok turrets, you can really do some damage, if you combine this with the main gun and you can do some crazy damage. I got this set up a long time ago and it's an essential part of my havok arsenal. Bucky Aug 25, 2019 a lot of hype, a lot of waiting and now the game is finally here. I started the game by playing on difficulty "normal" for my first time and I got pretty far into the campaign. I think that even if you're not a havok fan you'll at least enjoy this game. Especially if you are one. Its a brilliant game and it's the best havok game out there. You can also easily expand from your base and can really add a lot of variety. I recommend it. Ina Aug 20, 2019 I really like the new havok as it has helped me to win more matches! The battlefield is also much better than before as you can adjust your turrets and their individual ammo. btw. the havok trailer and ship looks so cool and I would really like to see that in the game adam This game is amazing! I played the early access for a while and was really disappointed when it was released, then I bought it for 3.99 and I'm so happy to play it now. This game's still in early access but it's pretty good already. Great game! Nick Aug 19, 2019 The single-player campaign is a lot of fun and challenging. The multiplayer is just as fun and it's really good at 6v6. A lot of things aren't in early access yet, but it's really cool that it's in alpha. I was worried the game would be too easy, but it's not. It's good to have more options. mike Overall, 520fdb1ae7
