INNOVATION AND COMMERCIALIZATION

Contributions to device, software or other development:

Community Health Analytics Training (CHAT)

Alongside Dr. Hamisu Salihu, MD, PhD, Professor and Vice Chair for Research in the Department of Family and Community Medicine, developed the Community Health Analytics Training (CHAT) software. CHAT a virtually enhanced visual analytics platform designed to improve adult learning capability based on an integrated approach that encompasses skill set atomization and sensory coupling and gender-Voice Alternation Theory. The platform has been used to administer an introductory course in cost-effectiveness analysis, and has been used to augment the delivery of information in multiple funded grants.

NeoCHART+™ and NeoSTART+™

Assisted Dr. Regine Fortunov, Assistant Professor in the Department of Pediatrics, with the development and testing of NeoCHART+™, an iOS application designed to accurately document in real-time the events of neonatal resuscitation. My role was to inform aspects of the interface development and to serve as a consultant on the iterative design and evaluation of the tablet application's ability to increase capture of important events, minimize documentation errors, and improve usability. [Began appearing in iOS app store January 2018](#). NeoSTART+™ is a complementary application that will focus more on the accuracy neonatal resuscitation team scoring.

TEACHING EXPERIENCE

Educational leadership roles:

- 2016 – 2020 **Associate Director, Primary Care Research Fellowship**
 Department of Family and Community Medicine
Role: Recruit diverse pool of high-quality fellows from across the US, serve on the selections and admissions committee, facilitate creation of a “mentoring mosaic” for each fellow (mentoring chair, career mentor, peer mentor), develop core curriculum for all fellows, provide substantive research training and opportunities, monitor fellow progress and alignment with short- and long-term goals, target program sustainability through enriching, adapting, and expanding core curriculum materials, broadening the mentoring pool, and disseminating and promoting the value of fellowship training to key stakeholders.

- 2016 – 2020 **Training and Curriculum Director, MCH Student Training for Academic Readiness and Success (MCH STARS)**
 CDC-funded grant with undergraduate, underrepresented minority students
Role: Provide leadership in the development of the curriculum, on-line, field and course learning experiences that will facilitate trainee knowledge and skill acquisition as well experiential learning. Responsible for working with Program Director on continuous quality improvement of courses. Also, serve as a mentor for scientific writing, evidence synthesis, statistical analysis, and dissemination of research.
- 2017 – 2020 **Leadership Committee, BCM Center of Excellence in Health Equity, Training and Research**
 HRSA-funded grant with underrepresented minority scholars at the post-baccalaureate, medical school, post-doctoral, and junior faculty levels.
Role: Establish approaches to candidate recruitment and criteria for candidate selection; optimize the pathways for recruitment, continuous training, and retention of underrepresented minority (URM) faculty; facilitate faculty, fellow, and student-mentored research on health equity and other minority health issues; translate continuous quality improvement metrics into actionable steps towards programmatic revision(s); plan the Center of Excellence Summer Research Summit annually.

Didactic coursework (full courses):

Baylor College of Medicine (Instructor, Professor)

- 2015 – 2020 **Family and Community Medicine, Health Services Research Elective**

University of South Florida College of Public Health (Graduate Teaching Assistant)

- 2011 **Epidemiology Methods I**
 Instructor, H. Salihu, MD, PhD
- 2006, 2007 **Computer Applications for Public Health Researchers**
 Instructor, L. Rajaram, PhD
- 2006 **Epidemiology of Mental Health Disorders**
 Instructor, M. Becker, PhD, RN
- 2006 **Epidemiology of Diseases of Major Public Health Importance**
 Instructor, A. Sanchez-Anguiano, MD, PhD
- 2005 **Biostatistics I**
 Instructor, L. Rajaram, PhD

Didactic coursework (research seminars, recurring presentations, and guest lectures):

- 2017 – 2019 **Two-Day Seminar in Clinical Research Methods**
 Department of Family and Community Medicine, Baylor College of Medicine
Co-taught with H. Salihu during various 2-day weekend trainings over three years.
Modules included: Introduction to Research Design, Data Collection Methods and Data Management, Statistical Testing - Part 1, and Statistical Testing - Part 2
- 2015 – 2019 **Primary Post-Doctoral Fellowship Core Curriculum**
 Department of Family and Community Medicine, Baylor College of Medicine
Sole instructor for two-year curriculum; weekly modules included: Clinical Epidemiology and Comparative Effective Research, Data Management and Analytic Principles to Large Administrative and Electronic Health Records Databases, and Cost-Effectiveness Analysis.
- 2015 – 2019 **Community Health Analytics Training (CHAT) Departmental Online Certificate Course on Introductory Cost-Effectiveness Analysis**
 Department of Family and Community Medicine, Baylor College of Medicine
Developed narrated videos, quizzes, assignments for a 13-module course.

- 2016 **Guest Lecture: Perinatal Research Seminar**
Colleges of Medicine and Public Health, University of South Florida
Title: Ambient PM_{2.5} and Benzene During Pregnancy: Estimating Maternal Exposure and Associations with Selected Birth Defects In Offspring.
- 2014 **Guest lecture: Epidemiology Methods I**
Colleges of Public Health, University of South Florida
Title: Public Health Surveillance Exemplified.
- 2013 **Guest Lecture: Perinatal Research Seminar**
Colleges of Medicine and Public Health, University of South Florida
Title: Developing an Infrastructure for Comparative Effectiveness Research in Maternal and Child Health: Innovations, Challenges, and Sustainability.
- 2011 – 2014 **Guest lecture: Community Health Data Sources and Technology**
Colleges of Public Health, University of South Florida (Instructor: R. Kirby)
Title: Understanding and Evaluating Secondary Data Sources.
Talk was given annually over a four-year period.
- 2013 **Guest Lecture: Special Topics in Perinatal Epidemiology Methods**
Colleges of Medicine and Public Health, University of South Florida (Instructor: W. Nembhard)
Title: Utilization of Data Linkage in Perinatal Epidemiologic Research.
- 2011 – 2013 **Interdisciplinary Seminar in Cost-Effectiveness**
Colleges of Public Health, University of South Florida
Led bi-weekly sessions with a team of 9 collaborators including faculty and graduate students.

Curriculum development work:

- 2017 – 2018 **Applied Clinical Research Methods**
Center of Excellence in Health Equity, Training and Research, Baylor College of Medicine. HRSA-funded grant, PI: Harris TB. Modules include: Epidemiologic study design, statistical hypothesis testing, training in the management and analysis of continuous outcome data, training in the management and analysis of categorical outcome data, multivariable modeling, scientific writing.
Role: Content development, mapping content to desired competencies, creating “research lab”, creation of assessment tools, and assisting with securing CME certification
Target audience: Clinical fellows and junior faculty
- 2014 – 2019 **Cost-Effectiveness Analysis (administered through Community Health Analytics Training)**
Course offered through chatacademy.org. Modules include: principles of CEA, working with and estimating costs, event pathways and probabilities, health-related quality of life measures, estimation of life expectancy, calculation of quality-adjusted life-years, structure and inputs of a decision analysis model, building a cost-effectiveness model, rollback and expected value calculations, cost-effectiveness plane, dominance in CEA, net benefits calculations, using variables and distributions, one- and two-way deterministic sensitivity analysis, tornado diagrams, probabilistic sensitivity analysis, cost effectiveness scatterplots and cost acceptability curves.
Role: Content development, module layout, establishing learning objectives, developing demonstrations using TreeAge Healthcare decision modeling software
Target audience: Undergrads, graduate, medical students, postdocs, clinicians, researchers, public health practitioners
- 2010 – 2011 **Epidemiology Methods I**
Department of Epidemiology and Biostatistics, University of South Florida College of Public Health. Worked with Primary Instructor (Hamisu Salihu) to develop a revised curriculum for the introductory course on epidemiological methodologies.
Role: Content development, creation of assessment tools
Target audience: Graduate students in public health

2007 – 2010 **Epidemiology Curriculum for the Master of Public Health (MPH), Master of Science in Public Health (MSPH), and Doctor of Philosophy (PhD) Degree Programs**
 Department of Epidemiology and Biostatistics, University of South Florida College of Public Health. Served as a doctoral student liaison to the College Academic Programs and Curriculum Committee. Worked with Director of the Doctoral Program in Epidemiology (Wendy Nembhard) to provide feedback on transformed curriculum.
Role: Prioritization of doctoral, organization of course delivery
Target audience: Graduate students in public health

Faculty development or continuing medical education:

2017 – 2018 **Faculty Development Series, Department of Anesthesiology** (Recurring Lecturer)
 Provided lectures focused on study design, key statistical considerations for clinicians, understanding the importance of distinguishing between absolute and relative measures in clinical research.
 2017 – 2018
Learners: clinical fellows, junior and senior faculty; 40 total across two lectures
Contact hours: two 1-hour lectures; 10 hours prep time

2016 – 2020 **Faculty and Fellow Seminar Monthly Series** (Series Developer)
 Department of Family and Community Medicine, Baylor College of Medicine. Work with Department Chair (Roger Zoorob) to coordinate seminars for research faculty and staff. Develop forum to discuss diverse research topics to establish an atmosphere of inclusiveness and an avenue for exchange of varied research ideas; also seek to demystify professional development topics including but not limited to time and project management, applying for academic and non-academic positions, effective networking, and balancing teaching, research, and service.
Learners: junior/senior faculty, postdoctoral students, senior research staff, 25-30 per year
Contact hours: 37 hours total time; 12 hours seminar; 5 hours speaker recruiting; 20 hours prep

2014 – 2016 **Faculty Development in Primary Care** (Recurring Curriculum Planner and Lecturer)
 Department of Family and Community Medicine, Baylor College of Medicine. HRSA-funded grant, PI: Bray JH. Involved in lectures on fundamental statistical analysis and analytic tools, and scientific communication of research findings, including commentaries, briefs, and letters to the editor.
Learners: junior faculty; 7 per year
Contact hours: 6 hours in class; 20 hours prep time

Sep 2017 **Workshop in Interactive Data Visualization for Public Health Surveillance** (Developer and Presenter)
 Presented at the National Birth Defects Prevention Network meeting. CMEs provided through CDC, ACCME®, American Nurses Credentialing Center’s Commission on Accreditation, and IACET.
Learners: multiple levels and disciplines; 150
Contact hours: 1 hour workshop, 20 hours prep time
