Request-based learning encourages student participation, promotes collaboration and teamwork, and encourages students to think creatively. Students use four skills to listen, talk, read and write as they identify questions about the world around them, gather information, and find answers. Oxford Discover supports a research-based approach to Learning English. Each pair of units at Oxford Discover revolves around the thought-provoking Big Issue. A controlled lexicon and grammar program provides students with the language support they need to learn and discuss each topic. 21st century skills are an integral part of the Oxford Discover course. In an era of rapid change and advances in communication and technology, it is important that today's young students continue to develop strong skills in four key areas: Critical ThinkingOxford Discover encourages students to think deeply and evaluate information comprehensively. Students are encouraged to be curious and think outside their usual perspectives. CommunicationOxford Discover offers students many opportunities to become effective listeners, speakers, readers and writers. Each unit has two pages dedicated to comprehensive communication, but these skills are also used in common tasks and exercises. CollaborationOxford Discover offers opportunities for collaboration in every lesson, with students working together in pairs, small groups or as a whole class. CreativityOxford Discover encourages creativity across all departments, allowing students the freedom to offer ideas and express themselves without judgment. Conical content in the first six units of Level 1 provides a smooth progression between the kindergarten and the original society, makes learning more manageable, and equipping each student with the confidence that they need to succeed. In addition, today's young students should life and career skills, information, media and technology skills, as well as appreciation and concern for the health of our planet and intercultural understanding. Oxford Discover aims to help students build on these necessary skills to succeed in the 21st century.
