Virgin mobile phones walmart

Author Updated December 12, 2019 Whether you have a Virgin Mobile plan that includes a certain number of minutes, a certain amount of text messages, or the amount of data - or if you have a simple payment plan as you go, you can check your account balance directly from your phone. In addition to phone tools, you can also use the Virgin Mobile website or go to old school and call customer service. Press the \$ if you have a phone equipped with one to get a balance of cash to pay as the plans move. Click on the phone's main menu to find the \$ icon and click on it to find account information including money or balance minutes. Dial 86 (_VM) on your Virgin Mobile phone and click Talk or Send. Tell Check balance in response to a voice request. Also, call customer service at 888-322-1122 at any other phone call. Get access to your account online on virginmobileusa.com and log in with your phone number and vKey, then click on my account or my home account to find information about the plan and balance. Virgin Mobile users with Android phones can check their balance minutes using the Minutes Checker app Appbrain.com. Michael Ryan Making a three-day call using a Virgin Mobile phone is helpful if you need to have a quick business meeting or share information that you have to pass on to multiple friends at the same time. With the easy-to-understand plans and phones offered by Virgin Mobile, the process of creating a three-way call is similar to all phones, and it's also similar to the process used on traditional landlines. Once the three call paths are up and running, it can be terminated by those who initiated it by simply hanging up the phone. Check your account balance. If you have a prepaid account, make sure you have enough money to cover the estimated duration of your phone call. You are charged a standard rate per minute for each of the calls you make. A three-day call is considered to be two simultaneous phone calls. So if you have a three-way call that lasts for 30 minutes, you will pay a total of 60 minutes. Dial the first number. Enter your phone number or find it in the address and click the Send button. Make contact with the first number. Once you are on the phone with the first party, you can dial the second outgoing number, while remaining on the call with the first party. Dial the second number. Enter your phone number and click the send button. Your phone will call the second number and establish a separate connection while the first call is withheld. Set a three-way call. During the second call, click the send button to combine the two calls and start Call. Virgin Mobile, owned by Richard Branson, is a wireless carrier with a service in Australia, Canada, Chile, Colombia, France, India, Saudi Arabia, Poland, South Africa, Mexico, the United Kingdom and the United States. Everyone The mobile brand operates independently, so services and devices vary between locations (not all the same phones and services are available in all locations). Virgin Mobile works on top of the existing mobile operator or mobile virtual network operator (MVNO) - for example, Sprint in the United States. Virgin Mobile offers a wide range of prepaid devices and services, including voice, messaging and data. They offer current top devices like the Samsung Galaxy S5 and iPhone 5s. Devices and top cards are available in thousands of affiliated and independent retail stores. Virgin offers unlimited plans starting at about \$20 per month, Broadband2Go services for mobile 3G and LTE data, and Virgin Mobile custom, which allows you to build a plan customized to your mobile needs. More information can be found at Virgin Mobile.nofollow. Lifewire uses cookies to provide you with a great user experience. Using Lifewire, you agree to use cookies. Justin Sullivan/Getty Images News/Getty Images Mobile Phones are important because they allow greater ease of communication and versatility in the way people use technology. Without mobile phones, people would be limited to calling landlines and at a disadvantage in emergencies or natural disasters. Mobile phones are becoming more connected to the Internet, allowing people to shop, socialize and plan trips on the go. Mobile phones provide instant connectivity to friends and family. In today's, always on society, it can be disorienting not to have an Internet connection, but a simple click on the phone internet access. Cell phones are not only important to society as a whole They can change people's lives. Before mobile technology came along, someone stranded on the side of the road would have to hitchhike or walk up to the nearest clock phone to call for help. Now the phone can ring from anywhere, provided that there is a signal and it can act as a GPS if the person is lost. Many mobile phones have emergency services that are independent of the service plan. Mobile phones can support a wide range of applications, giving them many of the same features available on a laptop, but without the extra mass. Strengthens the company's prepaid position in the wireless market with Iconic Consumer Brand public shareholders to receive \$5.50 per shareoverLAND PARK, Kan. 28, 2009 - Sprint Nextel Corporation (NYSE:S) and Virgin Mobile USA, Inc. (NYSE: VM) announced today that their boards of directors have approved a final agreement for Sprint to acquire Virgin Mobile USA for a total share price of approximately \$483 million, which includes the current value of The Current 13.1% Sprint fully diluted Virgin Mobile USA. In addition, at the close of Sprint will retire all Virgin Mobile USA outstanding outstanding that is \$248 million net of cash and their equivalents as of March 31, 2009, but is expected to be no more than \$205 million minus cash and their equivalents as of September 30, 2009. This acquisition will strengthen Sprint's position in the growing prepaid segment, combining under one umbrella the iconic Virgin Mobile brand with Sprint's successful Boost Mobile business. These additional prepaid brands, each with a distinctive offering, style and attractiveness to different demographic customers, will continue to serve existing and potential customers once the transaction is completed. Sprint's prepaid business will be led by Dan Shulman, the current chief executive officer of Virgin Mobile USA, who will report directly to Dan Hesse, President of Sprint Nextel and Chief Executive Officer. By bringing exclusive telecommunications leadership credentials to Sprint, Shulman will be responsible for the business strategy and growth of the prepaid segment. Matt Carter will continue to lead Boost Mobile and will report to Shulman. The acquisition of Virgin Mobile could make U.S. Sprint even more successful in the prepaid wireless segment, Hesse said. Prepayment is growing at an unprecedented rate with consumers keenly focused on cost. Virgin Mobile is an iconic brand in the market that will complement our Boost Mobile brand. I've known Dan Shulman for years and I feel very lucky to have a leader with Dan's talents joining Sprint to take us to even greater heights in the down payment, Hesse added. Virgin Mobile USA revised the U.S. prepaid segment when we started seven years ago, Shulman said. Sprint is committed to growing its prepaid business, and this deal will provide us with the resources and opportunities to compete more aggressively, and strengthen our position in prepayment. The benefits of transactions strengthen Sprint's position in the fast-growing prepaid segment. Improves cross-sales of Sprint's full suite of products and services to a wider target audience. Free cash flow accretive to sprint to synergy. Synergy to be derived from general and administrative reduction, operational efficiency and orderly distribution. Sprint acquires deeper management talent with additional experience in the prepaid segment. Under the terms of the agreement, Virgin Mobile U.S. shareholders will receive shares in Sprint common stock based on exchange-traded ratios described in more detail below, and cash instead of fractional shares. Virgin Mobile U.S. Public Shareholders: Each public shareholder holding a total of about 39.7 million shares on a fully diluted basis, or 43.3% of the shares, will receive Sprint shares with a 10-day average closing price, \$5.50 per share of Virgin Mobile USA, provided that the collar is mentioned below. Below. The exchange rate for public shareholders will be based on the 10-day average closing price of Sprint shares, which ended two trading days before closing. The exchange ratio will be subject to the collar in such a way that in any case the exchange ratio will not be below 1.0630 or above 1.3668. Virgin Group: The exchange rate for Virgin Group in all circumstances will be 93.09% of the exchange ratio for public shareholders, which is usually \$5.12 per share of Virgin Mobile U.S. for common shares owned by Virgin Group (including shares in which preferred shares are convertible). Preferred shares owned by Virgin Group will be converted into common shares based on Virgin Group's exchange rate at a conversion rate of \$8.50. Virgin Group owns approximately 26.0 million shares on a fully diluted basis, or 28.3% of Virgin Mobile's U.S. shares. SK Telecom: The exchange rate for SK Telecom in all circumstances will be 89.84% of the exchange ratio for public shareholders, which is typically \$4.94 per share of Virgin Mobile U.S. for common shares owned by SK Telecom (including shares in which preferred shares owned by it are convertible.) Preferred shares owned by SK Telecom will be converted into common shares based on SK Telecom's exchange rate at a conversion rate of \$8.50. SK Telecom owns approximately 14.0 million shares on a fully diluted basis or 15.3% of Virgin Mobile USA shares. Based on the terms of the agreement, Sprint currently plans to issue between 81.4 million and 104.7 million shares of its common stock in exchange for all ordinary shares of Virgin Mobile USA, with the exception of 13.1% of Sprint shares, and all preferred shares of Virgin Mobile USA. Following the closing of the transaction, Virgin Mobile USA will continue to license Virgin Mobile USA brand from Virgin Group in accordance with the terms of the modified and modified trademark license agreement. Sprint will pay \$12.7 million for the initial term, which will continue until the end of 2021. The agreement contains several extension clauses that will allow Virgin Mobile USA to extend the period until 2047. Sprint will pay Virgin Group about \$50 million at the close as payment in full for net operating losses that virgin mobile will use in the future under the Tax Receivables Agreement. All outstanding Virgin Mobile U.S. debt will be decommissioned at the close of the transaction, including amounts principalified under the senior secured credit fund and related parties subordinated to the secured revolving credit agreements. Payments at the close of the Trademark Licensing Agreement, the Tax Receivables Agreement and Virgin's subordinated debt The U.S. will be held in either cash or Shares under the Sprint option. The deal depends on various closing conditions, including approval of Virgin Virgin deal U.S. shareholders, obtaining appropriate regulatory approvals and other normal closing conditions. Virgin Group and SK Telecom have agreed to vote for a portion of their voting shares of Virgin Mobile USA, which, in an aggregate vote of shares owned by Sprint, make up about 40% of the total votes. The transaction is expected to be completed in the fourth quarter of 2009 or early 2010. Sprint was recommended by Wells Fargo Securities and King and Spalding, Deutsche Bank Securities Inc., Colonnade Advisors LLC and Foros Advisors LLC also provided the committee with an independent ad hoc committee of virgin mobile and Deutsche Bank Securities Inc. Virgin Mobile U.S. Virgin Mobile also recommended by Simpson Thacher and Bartlett LLP.
