## Black and decker circular saw cordless

Everybody likes to keep their plants shrubs and trim and neat, but pruning them is a mostly thankless job. PruningEverybody likes to keep their plants shrubs and trim and neat, but pruning them is a mostly thankless job. Pruning can be especially rough on your hands, causing callouses and soreness. Black and Decker's new Cordless Pruner eliminates the pain of hand-powered pruning, focusing on efficiency and comfort. The Cordless Pruner has a comfortable grip and a dual-trigger system for safety. It cuts around 500 times per battery charge and has a ½ inch cutting capacity, meaning it can handle almost any branch or shrub that needs pruning. The Cordless Pruner is worth the price simply because it makes pruning that much easier on your hands, which is a lifesaver. Originally Published: October 30, 2017 1 / 16Tools with brushless motors and lithium batteries with monster amp hours have more power and longer runtimes. This increase in performance has led to more and more construction pros choosing cordless tools over their traditionally more powerful corded counterparts. But once the decision to cut the cord has been made, the next decision is which brand and model to choose. If you are in the market for a new cordless circular saw, you have come to the right place.As with any tool, we always recommend you actually pick it up and see how it feels in your hand. Better yet, try out a buddy's or a coworker's saw to see how it works in action. Everyone has different preferences, and there's no better way to make a decision than taking one for a test drive. But that's not always possible, so we've compared the many different features and the pros and cons of a handful of different models from top tool brands to help you decide. 2 / 16CONSTRUCTION PRO TIPSLeft or right? The blade on most corded saws is on the right as you push the saw forward; on many cordless saws, it's on the left. Either way is OK with us on a cordless saw—you just adapt. 3 / 16CONSTRUCTION PRO TIPSSaws sold as "bare tools" don't come with a battery or charger. If you already have a cordless tool, you may find a bare saw that uses the same battery. That cost savings alone might determine which brand you should buy. Some brands offer more than one model that can take the same battery, so look at all the features before you decide which saw to buy. 4 / 16CONSTRUCTION PRO TIPSWe thought it was a gimmick but soon came to love "headlights" on saws. They make it easier to follow the cutting line in low-light conditions. 5 / 16CONSTRUCTION PRO TIPSSome saws carry a 20-volt label, which might lead you to believe that they're more powerful than 18-volt saws. They're not. The 20-volt rating is for their "initial battery voltage," measured without a workload. Their actual rating is 18 volts. 6 / 16CONSTRUCTION PRO TIPSWhile there's still a performance gap between corded and cordless saws, most cordless models now have the cutting power to handle just about any job. We even found one (Makita's XSR01) whose power rivals that of a corded saw. Next, we'll give you more information on the cordless circular saws we got our hands on including price, blade size and what we liked or did not like about each model. 7 / 16CONSTRUCTION PRO TIPSSBlade size: 7-1/4"Price: \$229.00 (Bare Tool)This saw has all the features we like plus the extra capacity of a 7-1/4-inch blade. And if you're used to a corded saw, the blade is on the usual side—the right. 8 / 16CONSTRUCTION PRO TIPSSBlade size: 6-1/2"Price: \$64.00 (Bare Tool)This is one of the lightest saws we tried, weighing in at only 6.5 pounds. It was easy to control with either hand and easy to handle on a vertical surface. Its shoe is not very large, but that is what you'd expect from such a super-compact saw. 9 / 16CONSTRUCTION PRO TIPSSBlade size: 7-1/4"Price: \$166.57 (Bare Tool)This circular saw has plenty of power. Equipped with a 60V battery (won't work with 20V max batteries), it also has a long run-time—which you may need, because this saw will perform well on virtually any job. The blade is on the right, the same side as on most corded saws, so you'll feel right at home when you use it. 10 / 16CONSTRUCTION PRO TIPSSBlade size: 7-1/4"Price: \$249.00 (Kit)This saw differs from the others in several ways. It takes two 18V batteries and delivers awesome power and exceptional run-time. Of all the saws we tried, it performed most like a corded saw. It's also large and heavy, making it a great tool for big, tough jobs, but maybe not the best choice for standard duty. 11 / 16CONSTRUCTION PRO TIPSSBlade size: 6-1/2"Price: \$110.96 (Tool Only)This circular saw is light in weight, so it's easy to maneuver, and it has a relatively large shoe. The battery we used has a short run-time, though, and the motor is on the slow side. 12 / 16CONSTRUCTION PRO TIPSSBlade size: 6-1/2"Price: \$119.00 (Bare Tool)Featuring a heavy-duty aluminum shoe and a dust blower, this saw performs well in cutting 3/4-inch plywood and miters. You have to remove the battery to check its charge, however. 13 / 16CONSTRUCTION PRO TIPSSBlade size: 6-1/2"Price: \$120.00 (Bare Tool)Costing just under \$100, this saw has a larger shoe than you'll find on less-expensive models, which is great for better balance. Its motor spins relatively slowly, however. 14 / 16CONSTRUCTION PRO TIPSSBlade size: 7-1/4"Price: \$139.00 (Bare Tool)The 52 has a brush motor and weighs 1-1/2 pounds more than the brushless 53. These are the least expensive 7-1/4-inch saws that have a fuel gauge, a work light and an easy-to-read depth scale. Both models have plenty of power. Their two handles are offset, which can feel awkward if you're a lefty. 15 / 16CONSTRUCTION PRO TIPSSBlade size: 6-1/2"Price: \$199.00 (Tool Only)This saw is 1 lb. lighter than 7-1/4-inch saws with the same power and features—brushless motor, fuel gauge, work light and nice depth scale. It's the best 6-1/2-inch model we tested. The blade is on the left side, like on all the other 6-1/2-inch saws. 16 / 16CONSTRUCTION PRO TIPSSBlade size: 6-1/2"Price: \$99.00 (Bare Tool)Equipped with a fast motor and an extra-large 20V battery, this saw cruised through our 3/4-inch plywood and 45-degree miter tests. The battery has an extra-long run-time, but the larger size makes the tool heavier than most other 6-1/2-inch saws Originally Published: November 06, 2020 Stanley Black & Decker, Inc is a tools & accessories business based in the US. Stanley Black-and-Decker shares (SWK) are listed on the NYSE and all prices are listed in US Dollars. Stanley Black-and-Decker employs 53,100 staff and has a trailing 12-month revenue of around USD\$14.5 billion. Compare share trading platforms. If you're a beginner, look for a platform with low commissions, expert ratings and investment tools to track your portfolio. Narrow down top brands with our comparison table. Open and fund your brokerage account. Complete an application with your personal and financial details, like your ID and bank information. Fund your account with a bank transfer, credit card or debit card. Search for Stanley Black-and-Decker. Find the stock by name or ticker symbol: SWK. Research its history to confirm it's a solid investment against your financial goals. Purchase now or later. Buy today with a market order or use a limit order to delay your purchase until Stanley Black-and-Decker reaches your desired price. To spread out your purchase, look into dollar-cost averaging, which smooths out buying at consistent intervals and amounts. Decide on how many to buy. Weigh your budget against a diversified portfolio that can minimize risk through the market's ups and downs. You may be able to buy a fractional share of Stanley Black-and-Decker, depending on your broker. Check in on your investment. Congratulations, you own a part of Stanley Black-and-Decker. Optimize your portfolio by tracking how your stock — and even the business — performs with an eye on the long term. You may be eligible for dividends and shareholder voting rights on directors and management that can affect your stock. We evaluate stock trading platforms against a range of metrics that include fees, ease of use, available securities and advanced tools to meet specific investor needs. The technical analysis gauge below displays real-time ratings for the timeframes you select. This is not a recommendation, however. It represents a technical analysis based on the most popular technical indicators: Moving Averages, Oscillators and Pivots. Finder might not concur and takes no responsibility. This chart is not advice or a guarantee of success. Rather, it gauges the real-time recommendations of three popular technical indicators: moving averages, oscillators and pivots. Finder is not responsible for how your stock performs. Valuing Stanley Black-and-Decker stock is incredibly difficult, and any metric has to be viewed as part of a bigger picture of Stanley Black-and-Decker's overall performance. However, analysts commonly use some key metrics to help gauge the value of a stock. Stanley Black-and-Decker's P/E ratio Stanley Black-and-Decker's current share price divided by its per-share earnings (EPS) over a 12-month period gives a 'trailing price/earnings ratio' of roughly 26x. In other words, Stanley Black-and-Decker shares trade at around 26x recent earnings. That's relatively low compared to, say, the trailing 12-month P/E ratio for the NASDAQ 100 at the end of 2019 (27.29). The low P/E ratio could mean that investors are pessimistic about the outlook for the shares or simply that they're under-valued. Stanley Black-and-Decker's PEG ratio Stanley Black-and-Decker's 'price/earnings-to-growth ratio' can be calculated by dividing its P/E ratio by its growth — to give 2.1378. A low ratio can be interpreted as meaning the shares offer better value, while a higher ratio can be interpreted as meaning the shares offer worse value. The PEG ratio provides a broader view than just the P/E ratio, as it gives more insight into Stanley Black-and-Decker's future profitability. By accounting for growth, it could also help you if you're comparing the share prices of multiple high-growth companies. Stanley Black-and-Decker's EBITDA Stanley Black-and-Decker's EBITDA (earnings before interest, taxes, depreciation and amortisation) is USD\$2.5 billion. The EBITDA is a measure of a Stanley Black-and-Decker's overall financial performance and is widely used to measure a s profitability. Revenue TTM USD\$14.5 billion Operating margin TTM 13.49% Gross profit TTM USD\$5 billion Return on assets TTM 5.55% Return on equity TTM 12.22% Profit margin 8.49% Book value \$59.468 Market capitalisation USD\$32.2 billion TTM: trailing 12 months Shorting Stanley Black-and-Decker shares There are currently 3.8 million Stanley Black-and-Decker shares held short by investors — that's known as Stanley Black-and-Decker's "short interest". This figure is 20.2% up from 3.2 million last month. There are a few different ways that this level of interest in shorting Stanley Black-and-Decker shares can be evaluated. Stanley Black-and-Decker's "short interest ratio" (SIR) Stanley Black-and-Decker's "short interest ratio" (SIR) is the quantity of Stanley Black-and-Decker shares currently shorted divided by the average quantity of Stanley Black-and-Decker shares traded daily (recently around 1.3 million). Stanley Black-and-Decker's SIR currently stands at 2.87. In other words for every 100,000 Stanley Black-and-Decker shares traded daily on the market, roughly 2870 shares are currently held short. However Stanley Black-and-Decker's short interest can also be evaluated against the total number of Stanley Black-and-Decker shares, or, against the total number of tradable Stanley Black-and-Decker shares (the shares that aren't held by "insiders" or major long-term shareholders — also known as the "float"). In this case Stanley Black-and-Decker's short interest could be expressed as 0.02% of the outstanding shares (for every 100,000 Stanley Black-and-Decker shares in existence, roughly 20 shares are currently held short) or 0.0239% of the tradable shares (for every 100,000 tradable Stanley Black-and-Decker shares, roughly 24 shares are currently held short). Such a low SIR usually points to an optimistic outlook for the share price, with fewer people currently willing to bet against Stanley Black-and-Decker. Find out more about how you can short Stanley Black-and-Decker stock. Stanley Black-and-Decker's environmental, social and governance track record Environmental, social and governance (known as ESG) criteria are a set of three factors used to measure the sustainability and social impact of companies like Stanley Black-and-Decker. When it comes to ESG scores, lower is better, and lower scores are generally associated with lower risk for would-be investors. Stanley Black-and-Decker's total ESG risk score Total ESG risk: 28.87 Socially conscious investors use ESG scores to screen how an investment aligns with their worldview, and Stanley Black-and-Decker's overall score of 28.87 (as at 12/31/2018) is pretty weak — landing it in it in the 64th percentile of companies rated in the same sector. ESG scores are increasingly used to estimate the level of risk a company like Stanley Black-and-Decker is exposed to within the areas of "environmental" (carbon footprint, resource use etc.), "social" (health and safety, human rights etc.), and "governance" (anti-corruption, tax transparency etc.). Stanley Black-and-Decker's environmental score Environmental score: 3.28/100 Stanley Black-and-Decker's social score Social score: 14.54/100 Stanley Black-and-Decker's governance score Governance score: 6.05/100 Stanley Black-and-Decker's controversy score Controversy score: 1/5 ESG scores also evaluate any incidences of controversy that a company has been involved in. Stanley Black-and-Decker scored a 1 out of 5 for controversy — the highest score possible, reflecting that Stanley Black-and-Decker has managed to keep its nose clean. Stanley Black & Decker, Inc was last rated for ESG on: 2019-01-01. Total ESG score 28.87 Total ESG percentile 63.98 Environmental score 3.28 Social score 14.54 Governance score 6.05 Level of controversy 1 31%Dividend payout ratio: 31.07% of net profits Recently Stanley Black-and-Decker has paid out, on average, around 31.07% of net profits as dividends. That has enabled analysts to estimate a "forward annual dividend yield" of 1.4% of the current stock value. This means that over a year, based on recent payouts (which are sadly no guarantee of future payouts), Stanley Black-and-Decker shareholders could enjoy a 1.4% return on their shares, in the form of dividend payments. In Stanley Black-and-Decker's case, that would currently equate to about \$2.78 per share. While Stanley Black-and-Decker's payout ratio might seem fairly standard, it's worth remembering that Stanley Black-and-Decker may be investing much of the rest of its net profits in future growth. Stanley Black-and-Decker's most recent dividend payout was on 22 March 2021. The latest dividend was paid out to all shareholders who bought their shares by 7 March 2021 (the "ex-dividend date"). Have Stanley Black-and-Decker's shares ever split? Stanley Black-and-Decker's shares were split on a 2:1 basis on 3 June 1996. So if you had owned 1 share the day before before the split, the next day you'd have owned 2 shares. This wouldn't directly have changed the overall worth of your Stanley Black-and-Decker shares — just the quantity. However, indirectly, the new 50% lower share price could have impacted the market appetite for Stanley Black-and-Decker shares which in turn could have impacted Stanley Black-and-Decker's share price. Stanley Black-and-Decker share price volatility Over the last 12 months, Stanley Black-and-Decker's shares have ranged in value from as little as \$91.8594 up to \$203.31. A popular way to gauge a stock's volatility is its "beta". SWK.US volatility(beta: 1.44)Avg. volatility(beta: 1.00)LowHighBeta is a measure of a share's volatility in relation to the market. The market (NYSE average) beta is 1, while Stanley Black-and-Decker's is 1.4437. This would suggest that Stanley Black-and-Decker's shares are more volatile than the average for this exchange and represent, relatively-speaking, a higher risk (but potentially also market-beating returns). Stanley Black-and-Decker overview Stanley Black & Decker, Inc. engages in the tools and storage, industrial, and security businesses worldwide. Its Tools & Storage segment offers power tools and equipment, including professional products, such as professional grade corded and cordless electric power tools and equipment, and pneumatic tools and fasteners; and consumer products comprising corded and cordless electric power tools primarily under the BLACK+DECKER brand, as well as lawn and garden products and related accessories, and home products.
