Our free Hershey Mathematics collection includes a task card focusing on the she turns of history and at factional events include Hershey's bars. Your students will love these attractive math activities! Adding candy to learning skills can be a great way to peak interest in the subject and get students engaged. Obviously it can't be done every day, but it's a fun way to add a little bit of something to the lesson during these endless winter months spent indoors. Using these hershey mathematical resources, we created a set of three mathematical resources to accompany the study of chocolate in your class. These activities are all focused on Hershey Chocolate Bars, but the actual candy bar is only required for one of the activities. We think this could be a fun way to celebrate Valentine's Day in classes during math! The following actions are included in the download Math Task Cards This set contains a collection of 18 word problems that progress in difficulty. Two different pages of the record are also included. You can differentiate this activity by selecting task maps that meet each student's needs. Hershey Bar Faction This includes three page activities that are designed to be used with the full size of Hershey's bar. Students will use Hershey's bar as they perform tasks related to factions. When full, they can eat their candy bar! Adding Chocolate Pieces Center This game includes a fractional card and a record page with Hershey's bar outlines. Students choose two factions, color Hershey pieces and find the sum of two factions. (NOTE: We have included factions that do not shrink, and factions that will lead to a sum greater than one whole. You can delete them.) We hope you enjoy these free and sweet resources! Download these free math activities here: Hershey Maths Activity Terms of Use Like all our resources, Learning Corner creates them for free use in the classroom. Our products cannot be sold. You can print and copy for personal use in the classroom. They are also a great effect for home school families! You cannot change or resell in any form. Please let us know if you have any questions.
