Episode 4037m The Skilled Supervisor is the second episode of The King's Avatar, which aired on April 7, 2017, alongside the Green Forest 1.At Episode, Sleeping Moon continues to struggle with the Midnight Phantom Cat from the previous episode. Seeing that his position is hopeless, he tries to suck up lord Grim, but he only gets brushed off. With his failed attempt, Midnight Phantom Cat jumps on him. This leads his HP to leak to 0. Lord Grime holds his weapon, the Umbrella of the Miriad Manifesto, which turns into a battle and agro turns to him as the only one left in the party. Chen Goo wakes up from sleep to see E Seing play the game at a slow pace. When she looks at his screen, she sees a pop-up ad system proclaiming Lord Grime to get the first murder for Midnight Phantom Cat. This excites her, and she shakes and smacks the back of Ye Xiu when she sees that he also received an art book. He comes out of the plunder screen to see what the chat world is currently spamming over Sleeping Moon and his groupies claiming Lord Grim stole the boss. Ye Xiu explains the situation to her, which leads her to be upset by the shameless Sleeping Moon. Seeing that Ye Xi is calm, she asks him if he is angry, and he replies that this is the case, although he should not show it. She thanks him for claiming her coat and falling asleep. Because of sleeping Moon spam, Ye Xiu has trouble joining another group. He sees Sleeping Moon and his group needing another player and heads there to join their group. Sleeping Moon tells everyone about Lord Grim's alleged misconduct again, only for him to be asked to join their group. They let him in and went to Green Forest with plans to kill him later. In Green Forest, Ye Xiu leisurely carrying the band through the raid, go as far as solo boss Livid Shadow Cat. Seeing that Green Forest is a hopeless situation and they won't be able to kill Lord Grim there, they instead move on to Spider Cave once Lord Grim reaches level 10.The situation in The Spider's Cave continues with Lord Grim leading the group. Suddenly the spiders fall from the ceiling, but Lord Grim strikes a 180-degree blow into the air to kill the little spiders. He continues to fight alone, hitting a 17-hit combo. After that, the boss comes crashing through a small entrance with Lord Grim rushing to engage. Four of the Full Moon Guild are surprised that he guides them through the raid and hitting the boss four times in the air (which requires 170 APM). They conclude that his APM is well above 200, leading them to believe that they have no chance of killing him. Suddenly, the ad system comes on, congratulating Lord Grim and his band for the first clear in Spider's Cave. The scene changes on Blue River and its band, which were 10 seconds too late from getting the first clear in Spider Cave, to the great anxiety of the bands. Blue River tells his group to find out who Lord Grim is. The scene changes to Ye Xiu and his band; all but the Sleeping Moon sucks up to it. The Sleeping Moon runs up to Lord Grim and tells him that he will overtake him, only for him to say, Good luck. After this exchange, they run to the Emperor's Hidden Boss Spider, and Lord Grim tells them that he can kill him under certain conditions. They make him the leader of the party, and he rushes to do it. He strikes the Spider Emperor, and gives all the coordinates where He rushes to him again and slides under the boss, hitting him from the back. He suddenly jerks out the eggs from which the little spiders pop out. Lord Grim orders them to launch an attack on the Spider-Emperor. Although Sleeping Moon doesn't do it in time for his position, Lord Grim uses the Shadow Clone to teleport to the Sleeping Moon position and do his job for him. He continues to interact with others, forcing the Spider Emperor to be paralyzed. It shocks everyone, as they have never fought like this before, although it tells them to stay focused and keep the rhythm up. The scene switches back to Blue River and his group regarding the position of Lord Grim. He is given a rundown of the situation between Lord Grim and the Sleeping Moon. Another ad system pops up announcing the first Spider-Man to kill, congratulating Lord Grim and his band again. This causes Blue River into a panic and he learns Herb Garden and tyrannical ambitions have got two other Hidden Boss first kills. Back at happy Internet Cafe, E-Xie looks at his materials, but then when he closes his inventory, he sees a bunch of friends inviting from Blue River. Blue River welcomes and meets Lord Grim, explaining that he is one of the five great experts of Blue Rain. When Lord Grim responds, Blue River invites him to join his team in Frost Forest and tells Lord Grim that they need the first clear. Ye Xiu rebuffed him and tells Blue River his terms that he wants in return, it is rare materials. When 8 White Wolf fangs pop up, Blue River spits his drink and responds with a sweating smiley face. Ye Xiu continues to be heartless, requesting more and more. They finally agree on a deal. Noon arrives, and E-Xi, who thinks it's morning, is coming to greet Chen Goo. He tells her he's got three system ads that shock Chen Goo. He tells her he is going to sleep, but suddenly remembers that his sleeping arrangements have not been entered with him yet. She sends him to a beautiful neighborhood, and he tells her that she is too kind, but then she is brought into the pantry. She feels bad about it, but Ye Xiu tells her that there is no need like a bed to sleep in well enough. When she tries to tell him the blanket is too thin, she sees that he has already fallen asleep and walks away. The afternoon comes and the cafe is dark with the news of the o. Excellent era announced that their captain, E Tsyu, has decided to retire and refused any offers for other positions at the club. Ye Xiu feels very emotional during this time, which evokes memories of him using one Autumn Leaf. He goes outside to smoke, but sees Chen Goo outside crying. She asks if he has any tissues, only for him to offer one of his cigarettes. However, when he sees her angry face, he goes after her. Chen Goo leads inside afterwards, while Ye Xiu looks across the street to see the The Era Building. The scene ends with him leaving his current position.
