This premium spreadsheet package contains an actual printable file and 10 interesting and engaging spreadsheets to challenge your students and help them learn about the Earth. Click any example image below to see a larger version of the worksheet. Thinking about grabbing some free planet resources to teach your students? Try our free solar system spreadsheets - they include craft illustrations of the Sun and our planets. We've created a variety of teaching resources to help you plan a planet-themed unit! Planet Order WorksheetsIf you are looking for a simple way to help your students memorize the order of planets in our solar system, we already have a great memorization device to help! Simply take the first letter of each planet and use it to create a memorable saying. Here we are: My very excited mouse just slurped up noodles. (Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Uranus) This spreadsheet of free printable planets helps students visualize and remember the planet's order in our solar system. Planet CrownIt is always a great time to introduce to our wonderful solar system children about the planets. Whether they are young or old, students of all ages are fascinated by learning about the planets in our solar system! For your younger students, you can print up the solar system crown for free which they can color and wear throughout the day! Print on carstock colored paper for more planetish fun! The sun is in the center and the planets are in order as you go around the crown! This includes the asteroid belt between Mars and Jupiter.Planet Labeling ActivityOlder students can work on their good motor skills by cutting and pasting planet labels to fit the planet correctly. We've created several hand-drawn planet coloring pages and labeled the activity tables below. A simple blank coloring page of the Solar Belt, Planet, and Asteroids in our solar system. This is convenient for young children to color the planet as they are. This is a simple solar system cutting and pasting spreadsheets. Children of sun color and planets then cut out the labels and arrange them accordingly. Older children can use the labels as a word bank and write names in themselves. Planet Cursive Handwriting WorksheetsPlanet Order PrintablesIt is never too early to learn the order of the planets! Printable bookmarks and bracelets will help even the youngest students to memorize the planets in order. Students can color their own planet's bookmarks with this free printable set! Print on cardstock paper and laminate after coloring. These are great for students to practiceThe students can work on memorizing planets in order with printable solar system bracelets. Print on copied paper, colors and then pin or paste them around your student's wrist. Solar System Handwritten Page Expands Your Thematic Unit by adding planet's handwriting table. Each sheet gives students the opportunity to color the planet then practice handwriting and spelling. Available in IN or CURSIVE options, this set can be bound together to create an interesting planet book to take home. Solar System Worksheet (Free!)
