Jeremy Corbyn was define mutual assured destruction as a Cold War, the Soviet acknowledged the notion that a blow of nuclear war would be followed by retaliation, leading to a nuclear exchange between the Soviet and American strategic nuclear forces. During the Cold War, the doctrine of nuclear deterrence was considered a key component of strategic stability. The doctrine was based on the idea that a nuclear war would be too costly for either side, leading to mutual assured destruction. The doctrine was employed by both the United States and the Soviet Union during the Cold War, and it was the basis for the nuclear arms control agreements that were signed between the two superpowers.
